## NEW UNCENSORED BOOKS FROM AFP!

### *American Conspiracy Theories: From the JFK Assassination to the 9/11 Attacks*

**NEW**—Over the last half-century, the phrase “conspiracy theory” has become a regular term of abuse directed against those who challenge the establishment narrative on major events, with the JFK assassination and the 9/11 attacks being two prominent examples. By the mid-1960s, Americans had grown skeptical of the official story that JFK was killed by a lone gunman and suspected the CIA was involved. So, the intelligence agency ordered its media assets to ridicule such notions as “conspiracy theories” and the term became widespread. The creation of the internet in the 1990s allowed the easy distribution of unsanctioned narratives, and a new wave of theories blossomed in the aftermath of 9/11—some true, some false and some government disinfo. Softcover, \$15.

### *Faucian Bargain: The Most Powerful and Dangerous Bureaucrat in American History*

**NEW**—By Steve Deace, Todd Erzen. In his famous Farewell Address, Dwight Eisenhower warned about allowing public policy to become captive to unelected officials. During the “Covid crisis,” this is exactly what happened. States that listened to Anthony Fauci saw poor results across the board, while states that pursued a sane approach protected freedom and performed better in education, economy and health

outcomes. In this important book the authors do the job our uninquisitive media failed to do throughout the hyped pandemic. The lockdowns proved to be the enemy of science and freedom. Too much power was placed in the hands of unelected bureaucrats who were basically guessing as to what to do. In this case, can liberty survive in the hands of one all-powerful, unchallenged, and unelected bureaucrat such as Anthony Fauci? Somehow, he became the most powerful bureaucrat in American history. What were his mistakes and how can we stop this from happening in the future? Softcover, 176 pages, \$18.

### *Enemies: The Press vs. the American People*

**NEW**—In this step-by-step dismantlement of the propaganda arm of the Democratic Party, also known as the mainstream media, Peter D’Abrosca exposes the tactics by which the profiteering press deceives ordinary Americans, while delivering an epic tongue-lashing to the media’s most disreputable characters. Donald Trump drives liberals and the mainstream press berserk by labeling them the enemy of the American people. While the testy talking heads in D.C. might disagree, all relevant evidence supports Trump’s claim. Hilariously told, *Enemies: The Press vs. The American People* is a knee-slapping account of the follies of the corporate press freak show. It highlights the media’s fact-free and for-profit deception of unsuspecting Americans while delivering the press the proverbial beat down it so richly deserves. Hardback, 256 pages, \$27.

### *TrafficKing: The Jeffrey Epstein Case*

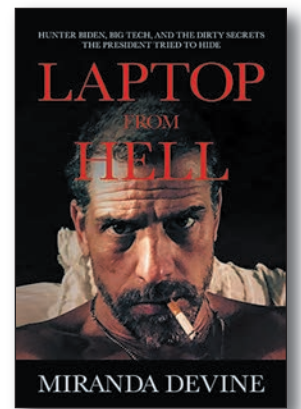

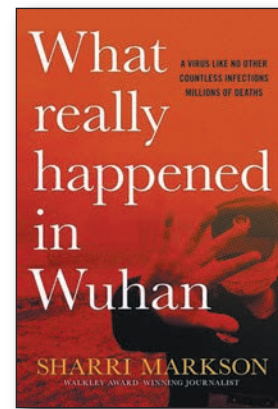

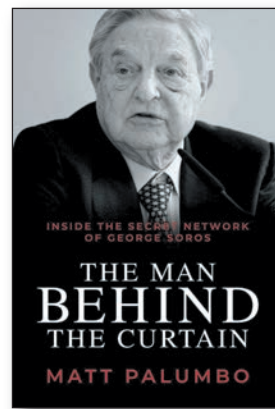

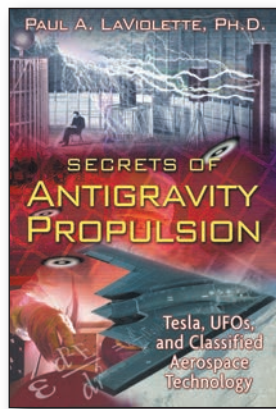

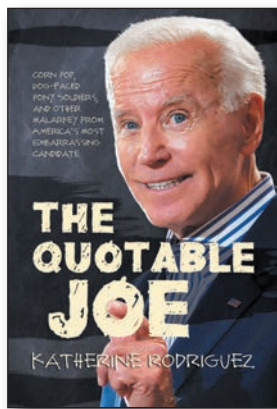

**NEW**—Author Conchita Sarnoff risked her life to tell the truth about level-3 registered sex offender Jeffrey Epstein. *TrafficKing* uncovers a child sex-trafficking case of epic proportions and the longest-running trafficking case in U.S. history. Eleven years after Epstein was arrested, four cases associated with his 2005 criminal investigation remain open. The pedophile was not prosecuted under the Trafficking Victims Protection Act. In this gripping exposé, Sarnoff finds out why. *TrafficKing* is a true story exposing the dark side of the human condition: avarice, lust, power, and influence peddling at the highest levels of government. Softcover, 352 pages, \$19.

### *Final Judgment Two-Volume Commemorative Edition*

In this two-volume book set, Michael Collins Piper documents that JFK’s efforts to prevent Israel from building nuclear weapons of mass destruction played a key role in the conspiracy behind his assassination. Elements of the CIA and organized crime were involved in the JFK conspiracy, but the role of Israel’s Mossad, was the long-suppressed “missing link” finally unveiled in this book. Now in two volumes, this extraordinary work demonstrates that the Israeli connection to the murder of JFK is the thread that ties together the whole plot. *Final Judgment: Volume 1* contains the main text of the book plus Mike’s amazing photo section (softcover, 425 pages). *Final Judgment: Volume 2* comprises the 10 extremely detailed appendices referenced again and again in the main body of the book (softcover, 374 pages). Two volumes, 799 total pages—\$45.

## *January 6: How Democrats Used the Capitol Protest to Launch a War on Terror Against the Political Right*

**NEW**—By Julie Kelly with a foreword by author Lee Smith. This is an eye-opening and breathtaking book that should be read by anyone who cares about justice, due process, and America's future. The events of January 6, 2021 are being exploited by the Democratic Party and the national news media to criminalize political protest and free speech in America. The melee at the Capitol shut down plans by some Republican lawmakers to object to Congress's official certification of the 2020 presidential election results. Democrats, the news media, and many leading Republicans immediately blamed the roughly four-hour disturbance on Donald Trump. The president "incited an insurrection," the American public was told. It prompted a second impeachment trial of Trump after he left office. But 18 months later, the original narrative of what happened that day has crumbled while hundreds of Americans have been swept up in an unprecedented investigation led by Joe Biden's Justice Department to punish them for their involvement in the protest. The public has been flat-out lied to about a number of aspects related to that day. This book exposes them all. Softcover, 320 pages, \$20.

## *The Quotable Joe: Corn Pop, Dog-Faced Pony Soldiers and Other Malarky from America's Most Embarrassing Candidate*

**NEW**—By Katherine Rodriguez. A collection of the most racist statements, lies, made-up stories, and dumbfounding moments of Joe Biden's entire career. Former Vice President Joe Biden has said many things throughout his career where he has put his foot in his mouth, flat-out lied or flip-flopped on his votes, made up false stories, plagiarized, and said racist comments. Things have not changed for "Sleepy Joe" since he decided to run for president in 2020. During his run on the 2020 campaign trail, he's told people at campaign rallies to "vote for someone else" and has called them "lying, dog-faced pony soldiers." Throughout

this book, you can expect to find some of Biden's most off-the-wall statements that make him the most embarrassing candidate to ever sit in the White House. Softcover, 114 pages, \$15.

## *Secrets of Antigravity Propulsion: Tesla, UFOs, and Classified Aerospace Technology*

**NEW**—Physicist Paul LaViolette reveals the secret history of antigravity experimentation—from Nikola Tesla and T. Townsend Brown to the B-2 Advanced Technology Bomber. He discloses the existence of advanced gravity-control technologies, under secret military development for decades, that could revolutionize air travel and energy production. Included among the secret projects he reveals is Project Skyvault, an aerospace propulsion system using intense beams of microwave energy similar to that used at Area 51. Using subquantum kinetics—the science behind antigravity technology—LaViolette reviews numerous field-propulsion devices and technologies that have thrust-to-power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory. He then presents controversial evidence about the NASA cover-up in adopting these advanced technologies. He also details ongoing Russian research to duplicate John Searl's self-propelled levitating disc and shows how the results of the Podkletnov gravity beam experiment could be harnessed to produce an interstellar spacecraft. Softcover, 512 pages, \$24.

## *The Man Behind the Curtain: Inside the Secret Network of George Soros*

**HOT SELLER**—By Matt Palumbo. George Soros's web of influence is documented and exposed. No one else in modern politics has the power and influence of George Soros, both domestically and internationally. Backed by the tens of billions of dollars he's accumulated, Soros has his hand in the media, activist groups, colleges, presidential elections, global elections, local U.S. politics, and more. Nowhere else will you find such an extensive documentation of his influence as in this book. The power this man actually wields should scare every American—Republican, Democ-

rat, and the people of the world. His agenda causes mayhem and disrupts law and order. Why do his well-funded prosecutors want to release violent felons back on the streets? How does Soros profit from this mayhem and what are his ultimate goals? Find out. Softcover, 224 pages, \$18.

## *What Really Happened in Wuhan: A Virus Like No Other, Countless Infections, Millions of Deaths*

**HOT SELLER**—By Sharri Markson. The origins of Covid-19 are shrouded in mystery. Scientists and government officials insisted, for a year and a half, that the virus had a natural origin, censoring anyone who dared contradict this view. Tech giants swept the internet, silencing debate in the extreme fashion. Yet, it is undeniable that a secretive facility in Wuhan was immersed in genetically manipulating bat coronaviruses in dangerous experiments. And as soon as the news of an outbreak in Wuhan leaked, the Chinese military took control and gagged all laboratory insiders. Part thriller, part exposé, *What Really Happened in Wuhan* is a ground-breaking investigation into the origins of Covid-19, the cover-ups, the conspiracies and the classified research. Hardback, 352 pages, \$29.

## *Laptop from Hell: Hunter Biden, Big Tech, and the Dirty Secrets the President Tried to Hide*

**HOT SELLER**—By Miranda Devine. When a drug-addled Hunter Biden abandoned his waterlogged computer at a repair shop in Delaware in 2019, just six days before his father announced his candidacy for the presidency, it became the ticking time bomb waiting in the shadows of Joe Biden's campaign. The sordid personal and financial secrets contained on Hunter's laptop could have easily derailed his father's presidential campaign. Instead, the biggest coordinated censorship campaign was launched in the history of the U.S. by the media and FBI, and Joe Biden became president. This is the unvarnished story of what's really inside that laptop—and what China knows about the Bidens and their corruption. Hardback, 224 pages, \$28.

*I Hate Democrats, I Hate Republicans:  
What If Everyone Was Wrong, and I Say  
What If, Because They Are*

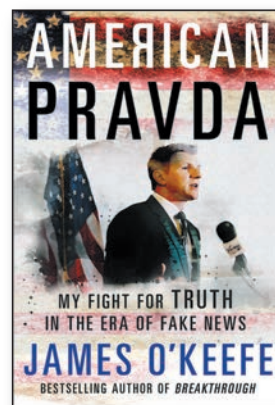

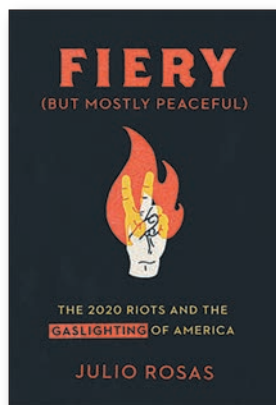

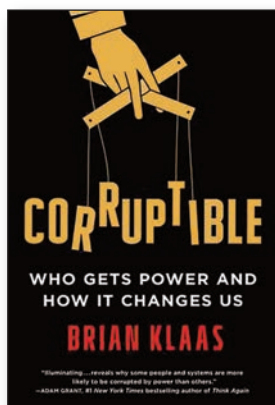

**NEW**—By Tim Young. In a time where people are trying to figure out who's right and who's wrong in politics, here's a book brave enough to say that everyone is wrong about almost everything. Tim Young uses his trademark snark and outrageous personal stories to break down how both parties have their failings, and how our political system has been tainted by bias from all sides. He then engages you, the reader, to check and balance on our American political system and "check yourself." In this funny and controversial book, Young challenges you to open your mind to perspectives that you might have written off, and admit that you, yourself, could be wrong. Softcover, 240 pages, \$18.

*Corruptible: Who Gets Power  
and How It Changes Us*

**HOT SELLER**—By Brian Klaas. An absorbing, provocative, and far-reaching inside look at what power is, who gets it, and what happens when they do, based on over 500 interviews with those who (temporarily, at least) have had the upper hand. Does power corrupt, or are corrupt people drawn to power? Are tyrants made or born? Are entrepreneurs who embezzle and cops who kill the result of poorly designed systems or are they just bad people? If you were suddenly thrust into a position of power, would you be able to resist the temptation to line your pockets or seek revenge on enemies? To answer these questions, *Corruptible* draws on over 500 interviews with some of the world's top leaders—from the noblest to the dirtiest—including presidents and philanthropists as well as rebels, cultists, and dictators. Hardcover, 320 pages, \$28.

*Fiery But Mostly Peaceful: The 2020 Riots  
and the Gaslighting of America*

**NEW**—By Julio Rosas. In the summer of 2020, America was under siege by radical Antifa and Black Lives Matter activists across the country. But if you were only reading mainstream headlines, you probably have no idea how bad it really was. As homes and businesses were being burned and looted and livelihoods were being destroyed, corporate media engaged in a full-scale gaslighting of the American

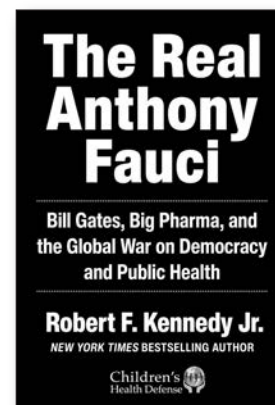

people, pushing narratives about the violent riots by mislabeling them as peaceful, democratic demonstrations, all to bolster their political views. One reporter was on the ground at all the major riots and witnessed what really happened—and is telling the full story for the first time. He exposes the truth behind countless misleading headlines and takes readers inside the shocking destruction the left-wing media refused to cover or acknowledge. Hardcover, 300 pages, \$30.

*American Pravda: My Fight  
for Truth in the Era of Fake News*

**HOT SELLER**—The one real difference between the American press and the Soviet state newspaper *Pravda* was that the Russian people knew they were being lied to. To expose the lies our media tell us today, controversial journalist James O'Keefe created Project Veritas, an independent news organization whose reporters go where traditional journalists dare not. Their investigative work has had a powerful impact. In this book, the reader is invited to go undercover with intrepid journalists as they infiltrate political campaigns, unmask dishonest officials and expose voter fraud. A rollicking adventure story on one level, the book also serves as a treatise on modern media, arguing that establishment journalists have a vested interest in keeping the powerful comfortable and the people misinformed. *American Pravda* puts the myths and misconceptions surrounding O'Keefe's activities to rest and will make you rethink every word you hear and read in the so-called mainstream press. Hardcover, 320 pages, \$24.

*The Real Anthony Fauci: Bill Gates,  
Big Pharma, and the Global  
War on Public Health*

**HOT SELLER**—By Robert F. Kennedy Jr. This book reveals how "America's Doctor" launched his career during the early AIDS crisis by partnering with pharmaceutical companies to sabotage safe and effective off-patent therapeutic treatments for AIDS. Fauci orchestrated fraudulent studies, and then pressured FDA regulators into approving a deadly chemotherapy treatment he had good reason to know was worthless against AIDS. Fauci repeatedly violated federal laws to allow his Big Pharma partners to use poor children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies. *The Real Anthony Fauci* details how Fauci, Gates, and their cohorts use

their control of media outlets, scientific journals, key government and quasi-governmental agencies, global intelligence agencies, and influential scientists and physicians to flood the public with fearful propaganda and muzzle debate and ruthlessly censor dissent. Hardcover, 480 pages, \$32.50.

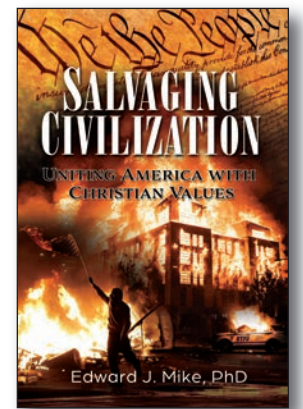

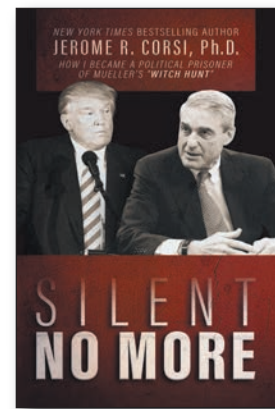

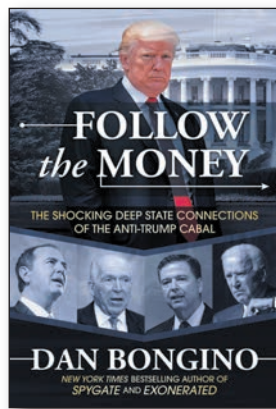

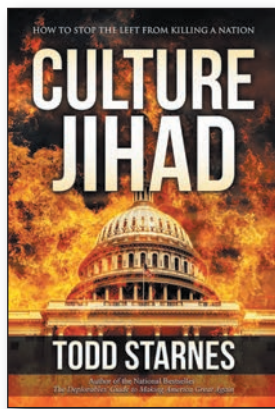

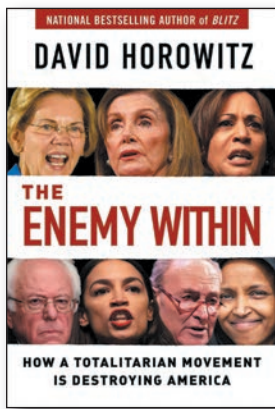

*Green Fraud: Why the Green New Deal  
Is Even Worse Than You Think*

A new lockdown to "save the climate." That's what's in store if Rep. Alexandria Ocasio-Cortez and the Democrats pass their radical climate plan—the Green New Deal. It is packed with guarantees so completely irrelevant to the problem it purports to "solve" (like "free college" and incomes for everyone "unable or unwilling to work") that even its boosters have admitted it's not about climate. Marc Morano, breaks down the science and the politics to expose the truth about the Green New Deal. The science is settled: Copious evidence plus prominent defections from the "climate consensus" make clear we are not facing a man-made climate disaster. But "climate change" is the perfect Trojan horse for the socialist agenda of the left. The Green New Deal is on a collision course with self-government and our fundamental rights. Packed with telling statistics, damning quotations, and real science, *Green Fraud* is your source for all the facts you need to understand—and resist—the threat. Hardcover, 256 pages, \$29.

## *The Enemy Within: How a Totalitarian Movement Is Destroying America*

America is on the brink of becoming a one-party dictatorship. How did this happen? This book provides the answer. David Horowitz lays out how we have ended up in the worst national crisis since the Civil War. He details: The left's embrace of Critical Race Theory and Cultural Marxism—the underpinnings of their totalitarian ideology; the decades-long infiltration of our education system, our institutions, and our freedom; why the Obama administration marked a point of no return in the division of America into two irreconcilable political factions; the Democrats' campaign to destroy a duly elected president; their political exploitation of the pandemic; their complicity in the riots of 2020, and revealed the fragility of our civic order. Horowitz provides a spot-on assessment of the threat to the republic and offers an escape route—while there's still time. Hardback, 256 pages, \$29.

## *Debunking The 1619 Project: Exposing the Plan To Divide America*

According to *The New York Times's* "1619 Project," America was not founded in 1776, with a declaration of independence, but in 1619 with the introduction of African slavery into the New World. Ever since then, the "1619 Project" argues, American history has been one long sordid tale of systemic racism. Celebrated historians have debunked this, more than 200 years of American literature disproves it, parents know it to be false, and yet it is being promoted across America as an integral part of grade school curricula and unquestionable orthodoxy on college campuses. How did this happen and what can we do about it? This book is essential reading for every concerned parent, citizen, school board member, and policymaker. Hardback, 256 pages, \$30.

## *Culture Jihad: How to Stop the Left from Killing a Nation*

**NEW**—America is on the verge of another Civil War. Socialism is on the rise. Free speech is under assault. People of faith are facing persecution. Gun owners are in the crosshairs. Our public schools have been turned into indoctrination centers. A leftist mob made up of socialist politicians, academic elites, raging feminists, and

effete Pajama Boys have partnered with Antifa, illegal aliens, and other radicals to finish what President Barack Obama started—a fundamental and unnecessary transformation of our nation. Can America be saved? Todd Starnes has the answers. Hardback, 304 pages, \$27.

## *Follow the Money: The Shocking Deep State Connections of the Anti-Trump Cabal*

**NEW**—*Follow the Money* exposes the labyrinth of connections between D.C.'s slimiest swamp creatures—Democrat operatives, lying informants, crooked FBI agents, Obama powerbrokers, CIA renegade John Brennan, George Soros, and more—who conspired to attack Trump by manufacturing scandal after scandal. Starting with the impeachment hearings, Dan Bongino works forward and backward to piece together the connections of a vast, well-funded cabal of wealthy Democrats and D.C. swamp elite to the non-stop deluge of manufactured scandals launched specifically to attack, destabilize, and, ultimately, remove Trump and his administration. Hardback, 208 pages, \$28.

## *The War on History: The Conspiracy to Rewrite America's Past*

Confederate memorials toppled, Columbus and Jefferson statues attacked. They started with slave-owning Confederate generals, but they're not stopping there. The vandals are only pretending to care about the character of American heroes. In reality, they hate what those heroes represent: the truths asserted in the Declaration of Independence and embodied in the Constitution. And they are bent on taking our system down and replacing it with a "socialist utopia." All that stands in their way is our reverence for our history of freedom, which is why that history simply has to go. Jarrett Stepman exposes the true aims of the war on our history. Softcover, 256 pages, \$17.

## *Black Lies Matter: Why Lies Matter to the Race Grievance Industry*

By African-American author Taleeb Starkes. Today, in nearly all of America's largest cities, black-on-black violence is skyrocketing and the grievance industry is booming. Unfortunately, these cities aren't anomalies. Year after year, violence plagues black communities. Since 1980, blacks have routinely accounted for almost half of America's annual homicide victims,

and more than half of the perpetrators—all while black males account for only 6% of the populace. Yet, a certain black-based industry—which specializes in nurturing comfortable lies while burying uncomfortable truths—propagates a notion that "racism" is the foremost issue facing black Americans, and white cops are bloodthirsty enforcers. Turns out that "lies" are good for the race-hustling business. Softcover, 189 pages, \$20.

## *Silent No More: How I Became a Political Prisoner of Mueller's "Witch Hunt"*

**NEW**—Dr. Jerome R. Corsi, Ph.D. meticulously details the psychological torment he was subjected to in what the media has simply called, "The Mueller Investigation." Over a period of two months, three of Mueller's top prosecutors and an army of FBI agents—up to nine government officials at a time—questioned Corsi. Finding no "smoking gun," Mueller's prosecutors blew up the meetings. Corsi refused to lie to the prosecutors to give them the ammunition they needed to prosecute Roger Stone, and, as a result, he was told he would be charged with a criminal offense for lying to the FBI. Hardback, 192 pages, \$28.

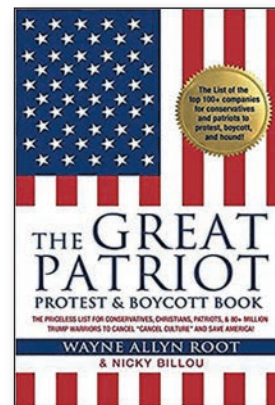

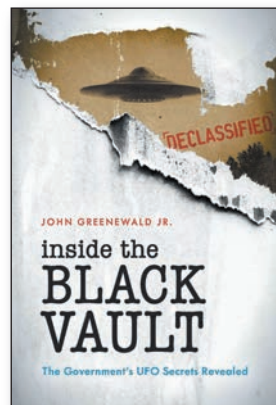

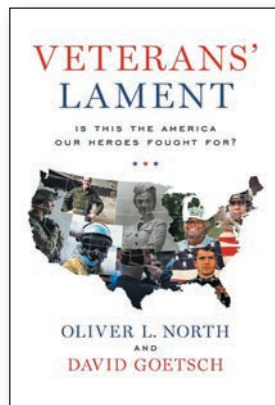

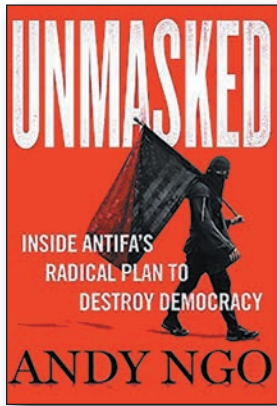

## *Salvaging Civilization: Uniting America With Christian Values*

Since the founding of the Communist Party USA in 1919, communists have infiltrated the churches, government, the schools, television, and more. Alienated atheists tend to replace Christianity with Marxism but, if they are informed about what is really happening, they will conceptually align with universal Christian values, so we have the power in numbers to restore our civilization. In other words, we must unite around Christian values. The author discusses the remedies—what we can do to reaffirm our values and save our Constitution. Softcover, 209 pages, \$20.

## *Unmasked: Inside Antifa's Radical Plan to Destroy Democracy*

A journalist who's been repeatedly assaulted and harassed by Antifa writes a deeply researched and reported account of the group's history and tactics. When Andy Ngo was attacked in the streets by Antifa in 2019, most people assumed it was an isolated incident. But those who'd been following Ngo's

reporting knew that the attack was only the latest in a long line of crimes perpetrated by Antifa on peaceful citizens. In *Unmasked*, Ngo tells the story of this violent extremist movement from the very beginning. He includes interviews with former followers of the group and people who've been brutalized by them, and incorporates stories from his own life. This book contains a trove of documents obtained by the author, published for the first time ever. Hardback, 320 pages, \$28.

### ***Disaster Preparedness for EMP Attacks and Solar Storms: Expanded Edition***

By Arthur T. Bradley, Ph.D. This book was written to provide insight into two very real threats: the electromagnetic pulse (EMP) attack and solar activity. Many people mistakenly believe that these threats were dreamed up by insane survivalists who are always planning for the end of the world. On the contrary, both threats are not only viable, but arguably certain. It is only question is "When?" Now is the time to give serious thought to these threats and plan your strategy. Softcover, 117 pages, \$15.

### ***Privileged Victims: How America's Culture Fascists Hijacked the Country and Elevated Its Worst People***

**NEW**—America's worst ideas and people are rising to the top, thanks to a rancid culture that has turned every part of our lives into a fight between so-called "privilege" and entitled brats claiming "victim" status. The country is under siege and America's most ferocious enemy is already here: our privileged victims. On university campuses, in the news media, and in Hollywood, race, gender, and sexuality determine who should advance and who should be beat down. Driven by "social justice" and governed by "intersectionality," radicalized college students, school administrators, journalists, and titans of Hollywood divide and rank us on an infinite scale of grievance—the more of them, the better. Here's the real story. Hardback, 288 pages, \$27.

### ***Inside the Black Vault: The Government's UFO Secrets Revealed***

John Greenwald Jr. began researching the secret inner workings of the U.S. government when he was 15. He utilized the Freedom of Information Act (FOIA) to gain access to more than 2 million pages of documents. This archive includes information relating to UFOs, the JFK assassination, chemical, biological, and nuclear weapons, and top-secret aircraft. He took the millions of pages and, over the course

of more than two decades, built an archive known around the world as "the Black Vault." This book takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Each chapter explores various agencies and their documents, and Greenwald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Softcover, 192 pages, \$16.

### ***The Great Patriot Protest and Boycott Book***

Are you a conservative patriot? Do you love America? Do you support capitalism? Are you frustrated at the direction of this country? Do you fear for the future of your children and grandchildren? Do you believe in Christian values? Do you see America under attack? Does this seem like a Marxist takeover? Do you see and feel evil all around us? If your answer is YES to any of those questions . . . this is the book for you! Now it's easy for conservatives, Christians, patriots, and 80+ million conservative voters to protest and boycott the companies that offend us, denigrate us, ignore us and spit in our faces. If companies go woke, teach them they'll go broke! This book tells how we can help pressure them. Softcover, 134 pages \$18.

### ***The 21 Biggest Lies About Donald Trump (and You!)***

Donald Trump was the most effective conservative president in decades. That's why the left-wing media hate him. That's why they lie about him. And there's something else. When they lie about him, they're really lying about you, because to the media, anyone who supports Trump is deplorable. But here, at last, is the counterpunch we've been waiting for. Columnist and bestselling author Kurt Schlichter provides a fact-filled—and frequently hilarious—takedown of some of the media's most pernicious lies about the president. Hardback, 256 pages, \$29.

### ***Unmasking Obama: The Fight to Tell the True Story of a Failed Presidency***

By Jack Cashill. During the Obama years, an asymmetrical media war was waged to control the critical first draft of American history. On the right was the alternative conservative media. On the left, the mainstream media, social media giants, Hollywood, Broadway, federal bureaucracies, the national security apparatus, and the virtual book burners. These forces routinely worked together to amplify Obama's "messaging campaign." Money, resources and power overwhelmingly favored the left, but the right had the truth! Hardback, 288 pages \$28.

### ***Game Plan: How to Protect Yourself from the Coming Cyber-Economic Attack***

In *Game Plan* you'll learn: The proper use of gold in your investment strategy; how stocks should be deployed in your portfolio; the smart way to diversify your portfolio; how to decrease your bond holding vulnerability; how to judge a guarantor in guaranteed investments; how to avoid falling into the marketing hype for hedge fund scams; how to find a properly trained investment advisor; how to advance wealth at the individual level; how to win the economic war. Hardback, 300 pages, \$28.

### ***The Invisible Rainbow: A History of Electricity and Life***

Cell towers, wi-fi, 5G: Electricity has shaped the modern world. But how has it affected our health and the environment? Over the last 220 years, society has evolved a universal belief that electricity is "safe" for humanity and the planet. Scientist and journalist Arthur Firstenberg traces the history of electricity from the early 18th century to the present, making a compelling case that many environmental problems—as well as many major diseases, such as heart disease, diabetes, and cancer—are related to electrical pollution. Softcover, 576 pages, \$25.

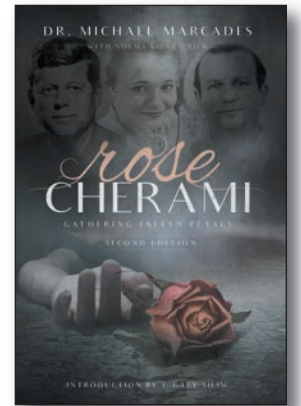

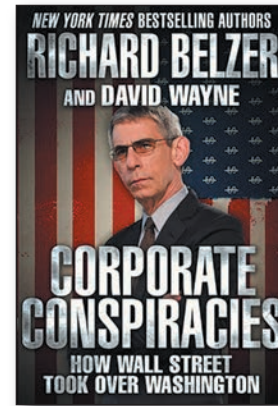

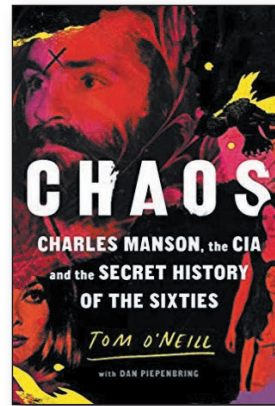

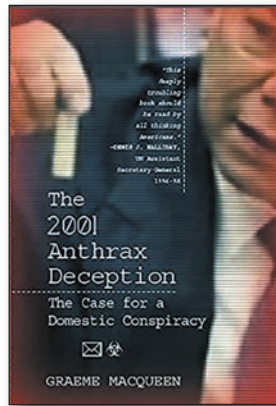

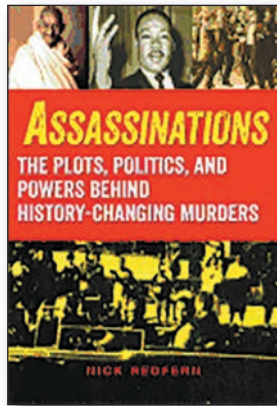

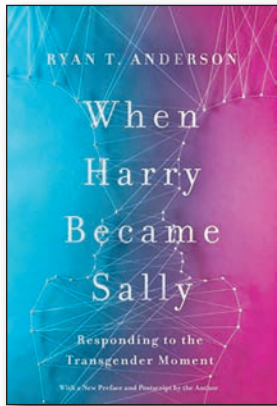

### ***When Harry Became Sally: Responding to the Transgender Moment***

Drawing on the best insights from biology, psychology, and philosophy, Ryan Anderson offers a balanced approach to public policy on gender identity, and a sober assessment of the human costs of getting human nature wrong. This book exposes the contrast between the media's sunny depiction of gender fluidity and the often sad reality of living with gender dysphoria. It gives a voice to people who tried to "transition" by changing their bodies and found themselves no better off. Softcover, 272 pages, \$17.

### ***Veterans' Lament: Is This the America Our Heroes Fought For?***

**NEW**—What is happening to our country? This question is heard more and more frequently these days as Americans worry about the unrelenting attacks by "progressives" on the foundation, core values, and history of our nation. Nobody is more concerned than those Americans who volunteered to serve in uniform and willingly put their lives on the line to serve on the front lines. Based on interviews by the authors, this book explains why many of our American heroes now question if America is still the country they were willing to die for. Hardback, 272 pages, \$27.

## *Obama's Unending Wars: Fronting the Foreign Policy of the Permanent Warfare State*

Many academics consider Barack Obama to be a master foreign policy strategist. This book demonstrates that Obama helped to institutionalize a permanent warfare state that resulted in gross human rights violations and contributed to America's decline. *Obama's Unending Wars* provides the first critical, comprehensive and highly documented history of the Obama foreign policy—the Drone King. Many now glance nostalgically back to the Obama presidency, but this book will help them to see the continuity—and continuous failure—of American foreign policy irrespective of the party or figurehead representing it. Softcover, 343 pages, \$30.

## *Assassinations: The Plots, Politics, and Powers Behind History-Changing Murders*

By Nick Redfern. Did Oswald really kill JFK—or was he the patsy he claimed to be? Was Jack the Ripper a madman or a ruthless secret agent of the British government? Did America's first secretary of defense kill himself or was he pushed to his death? Did Marilyn Monroe take her own life or murdered? What led to the demise of Danny Casolaro, an investigative journalist who was investigating a powerful cabal known as "The Octopus"? Was Princess Diana the victim of a car accident or a murder plot? Can sound waves and microwaves kill? Was John Lennon's murder what it appeared to be? These questions and many more are answered. Softcover, index, bibliography, 120 photos, 448 pages, \$20.

## *The 2001 Anthrax Deception: The Case for a Domestic Conspiracy*

In 2001, anthrax letter attacks in the United States killed five people and wounded dozens. They were widely blamed on extremist Muslims and their backers and used to support the invasions of Afghanistan and Iraq. They were also used to justify and hasten the passage of the USA Patriot Act. In October 2001, one of the hypotheses that gained ground was that al Qaeda was carrying out the attacks with the support of Iraq. But independent scientists soon discovered that the anthrax spores came from a domestic/military lab in the U.S. The FBI then quickly Dr. Bruce Ivins as the "Anthrax Killer." Al-

though the FBI remains committed to the Ivins hypothesis, the case has been disintegrating ever since it was proposed. If Ivins did not commit this crime, who did? Softcover, 189 pages, \$20.

## *Chaos: Charles Manson, the CIA and the Secret History of the Sixties*

Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the Manson murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. Every discovery brought more questions: Who were Manson's real friends in Hollywood? How far would they go to hide their ties to drugs and prostitution? Why didn't law enforcement act when it had the chance to stop him? And how did Manson turn peaceful hippies into remorseless killers? Softcover, 528 pages, \$19.

## *Corporate Conspiracies: How Wall Street Took Over Washington*

Some companies know their products will kill, but they do nothing, because it is cheaper to compensate victims than it is to correct the problem. The Pentagon has sent \$1.5 trillion to their corporate buddies for a new fighter jet that is already superfluous. Richard Belzer and David Wayne expose the ways that the capitalist regime has got us under their thumbs—from the mainstream media to the trillions stolen by big banks and mortgage companies to the scams perpetrated by Big Oil and Big Pharma. The one common victim of all that corruption is the U.S. public. This book is guaranteed to make us all think twice about being enslaved. Hardback, 248 pages, \$25.

## *Rose Cherami: Gathering Fallen Petals*

On Nov. 21, 1963, just hours from Dallas, Texas, Rose Cherami was going through heroin withdrawal when she was admitted for treatment. Once admitted, she warned doctors, nurses, and patients of JFK's impending death. She said she was traveling on a drug run from Miami with two men who were planning to kill the president. Soon thereafter, she was dead. Rose's only son, Dr. Michael Marcades, pieces together the fragments of Rose's life to reveal startling truths about the events leading up to the murder. Here is what Rose may have known. Based on true events. Softcover, 412 pages, \$22.

## *Making Hate Pay: The Corruption of the Southern Poverty Law Center*

The Southern Poverty Law Center (SPLC) started with noble intentions, but a pernicious corruption has undermined the organization's original mission and contributed to a climate of fear and hostility. Hotels, web platforms, and credit card companies have blacklisted law-abiding Americans because the SPLC disagrees with their political views. The SPLC's false accusations have cost the organization millions in lawsuits. A man even attempted to commit mass murder, inspired by SPLC fake rhetoric. How did a civil rights group dedicated to saving the innocent from the death penalty become a threat to free speech? Here's the story. Softcover, 240 pages, \$19.

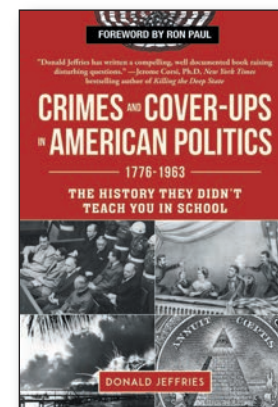

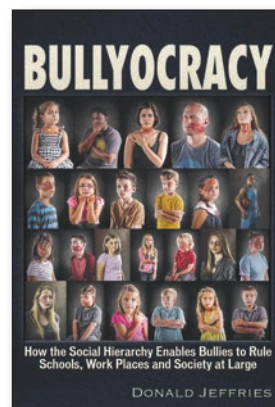

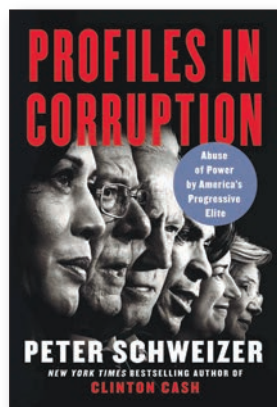

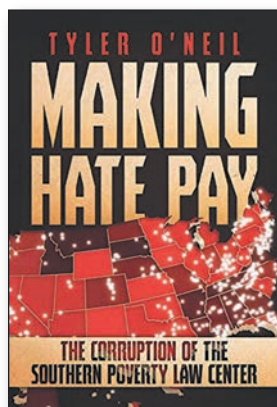

## *Profiles in Corruption: Abuse of Power by America's Progressive Elite*

In *Profiles in Corruption*, Peter Schweizer and his team of seasoned investigative reporters offer a deep-dive investigation into the private finances and secret deals of some of America's top political leaders. And, as usual, he doesn't disappoint, with never-before-reported revelations that uncover corruption and abuse of power—all backed up by a mountain of corporate documents and legal filings from around the globe. Learn about how they are making sweetheart deals, generating side income, bending the law to their own benefits, using legislation to advance their own interests, and much more. Hardback, 368 pages, \$30.

## *Open Borders Inc.: Who's Funding America's Destruction?*

Michelle Malkin provides an exposé of who's behind America's immigration crisis. In the name of compassion—but driven by profit—global elites, Silicon Valley, and the radical left are conspiring to undo the rule of law, subvert our security, shut down free speech, and make gobs of money on illegal aliens, refugees, and low-wage guest workers. Politicians want cheap votes or cheap labor. Social justice militants, working with corporate America, want to silence free speech they deem "hateful," while raking in tens of millions of dollars promoting mass, uncontrolled immigration that will forever and indelibly alter the cultural make-up of America. Malkin names names—from Pope Francis to George Clooney, from George Soros to the Koch brothers, from Dorsey to Cook and Zuckerberg. Hardback, 468 pages, \$29.

### ***Bullyocracy: How the Social Hierarchy Enables Bullies to Rule Schools, Work Places and Society***

Author Donald Jeffries turns his critical eye onto the topic of bullying to show how teachers, principals, and other school officials invariably side with the bullies, instead of protecting the victims. He also shows how many so-called anti-bullying activists and nearly all the professional “experts” excuse bullying and laud sociopathic behavior in general. Jeffries talked to parents who’d battled a system that logically should have been working for them, some of whom lost a child to bullycide. His investigation is shocking. Softcover, 384 pages, \$22.

### ***13 Pieces of the Jigsaw: Solving Political, Cultural and Spiritual Riddles, Past and Present***

James Perloff discusses why we fought the Spanish-American War, the deceptions that dragged America into World War I, a unique account of the *Hindenburg’s* destruction, FDR’s 9/11, the Korean War’s orchestration, why Nagasaki was targeted, a mysterious “Best Picture” Oscar, Christian Zionism’s hidden history, what is really happening in Syria, the unpublicized health dangers of wireless tech, and who fired the shot heard ‘round the world plus more! Softcover, 292 pages, \$22.

### ***Crimes & Cover-Ups in American Politics 1776-1963: The History They Didn’t Teach You in School***

Donald Jeffries scrutinizes the accepted history of everything from the American War of Independence to the establishment defamation of Jefferson and the other Founding Fathers, the Civil War, the Lincoln assassination, both World Wars, U.S. government experimentation on prisoners, mental patients, innocent children and whole populated areas, the Lindbergh baby kidnapping, the atrocities of Union troops during the Civil War—and Allied troops during World War II, the Nuremberg Trials and more. Hardback, 406 pages, \$25.

### ***Hate Crime Hoax: How the Left Is Selling a Fake Race War***

If you believe the news, today’s America is plagued by an epidemic of violent hate crimes. But is that really true? In *Hate Crime Hoax*, Professor Wilfred Reilly examines over 100 widely publicized incidents of so-called hate crimes that never actually happened. With a critical eye and attention to detail, Reilly debunks these fabricated incidents—many of them alleged to have happened on college campuses—and explores why so many are driven to commit fake hate crimes. Hardback, 256 pages, \$29.

### ***In Their Own Words: The Democratic Party’s Push for a Communist America***

*In Their Own Words* answers an important question on the minds of many Americans: What is happening inside America’s Democrat Party? During the 1980s, before the collapse of the USSR, Democrat leaders like Bernie Sanders and Bill De Blasio were ardent supporters of Marxist Daniel Ortega and his Nicaraguan revolution. Ortega was allegedly “the man of the people,” intent on forming a socialist government of equality. Today Ortega crushes dissent from the people he “liberated,” joining Nicolas Maduro of Venezuela as just another “elected” dictator who has destroyed his country through the implementation of socialism. But who from the media is questioning the horrendous judgment of Sanders and De Blasio back then, as they actually push the same policies for America? *In Their Own Words* by Terry Turchie and Donagh Bracken shines the light on the insidious nature of socialism as the transformative step toward a “communist utopia.” The problem is that the “utopia” part never happens. Softcover, 390 pages, \$22.

### ***Secret Empires: How the American Political Class Hides Corruption and Enriches Family and Friends***

Peter Schweizer explains how a new corruption has taken hold, involving larger sums of money than ever before. Stuffing money into a freezer has morphed into multibillion-dollar equity deals done in the dark corners of the world. An American bank opening in China would be prohibited by U.S. law from hiring family members of top Chinese politicians. A Chinese bank opening in America can hire anyone it wants. It can even invite the friends and families of U.S. politicians to invest. Donald Trump’s children have made front page news for their dicey transactions. The media has ignored the questionable deals made by those close to Obama, Biden, Kerry, and others who have been in the game much longer. Hardback, 318 pages, \$29.

### ***Strange Company: Military Encounters with UFOs in WWII***

By Keith Chester. *Strange Company* is the first in-depth account of unconventional aircraft observed and reported by the military during World War II. It includes the reactions by military commands, their viewpoints, and theories as they struggled to make sense of the observations. *Strange Company* presents one of the greatest wartime mysteries, one that has been shrouded in ignorance for more than 60 years. And it suggests that while an immense 20th-century war was raging on Earth, there appeared to be something, from somewhere else watching us. Softcover, 320 pages, \$18.

### ***The Diversity Delusion: How Race and Gender Pandering Undermine Culture***

By Heather MacDonald. Toxic ideas first spread by higher education have undermined morals, fueled intolerance, and widened divisions in our culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges this belief is silenced. Hardback, 288 pages, \$29.

### ***Survival of the Richest—How the Disparity of Wealth Created the Greatest Conspiracy of All***

Donald Jeffries scrutinizes how the collective wealth of America has been channeled from the poor and middle class into the hands of a few elitists. American industry has been gutted, wages and benefits stagnate, thanks to disastrous trade deals and outsourcing. The presidential campaigns of Sanders and Trump revealed how more and more struggling people understand that the system is rigged against them. While Americans have been trained to direct their scorn at welfare recipients and the poor, a handful of plutocrats profit on an unfathomable scale. Hardback, 280 pages, \$25.

### ***The Intimidation Game: How the Left Is Silencing Free Speech***

From journalist Kim Strassel comes an insightful, alarming look at how the radical Left, once the champion of civil liberties and free speech, is today orchestrating a campaign to bully and frighten Americans out of their free speech rights. *The Intimidation Game* provides a chilling exposé of political scare tactics, including: how *Citizens United* set off a wave of liberal harassment against conservatives, the targeting of tea party groups by the IRS, how states have shut down conservative political activism businesses and websites, and much more. This book shines a light on how liberal governance and the liberal machine ensure varying opinions never reach the public. Softcover, 416 pages, \$18.
