WHIPPING BOYS

• Biden makes Border Patrol, U.S. citizens his scapegoats

By the AFP Staff

While millions of Americans are being forced to quarantine for two weeks when they have the sniffles, wear medical masks when they go out in public, endure regular medical testing, and get vaccinated or risk losing their livelihoods, bizarrely, Washington is acting like nothing is going on when it comes to illegal immigration.

This reality hit hard in late September when an estimated 30,000 illegal immigrants rushed across the U.S. border near the tiny little town of Del Rio, Texas in a matter of days. Overwhelmed Border Patrol agents did their best to try to stem the invasion—that is until liberal journalists and deluded politicians accused them of “whipping” and “terrorizing” the thousands of Haitians and Central and South Americans running across the border to invade the country illegally.

It’s a fictional tale, but the left’s media-fueled hatred of conservatives is not.

SPECIAL PRIVILEGES FOR ALIENS

For weeks, the mainstream media has been ghoulishly gloating over the deaths of conservatives, who have refused to get vaccinated for Covid, but there was no mention of the potential risks from the tens (if not hundreds) of thousands of illegal immigrants who may be infected with Covid-19 and other communicable diseases. These alien invaders are now

Those are reins, not a whip, for those leftists who have never ridden a horse while trying to apprehend a struggling fugitive carrying multiple containers of “carry-out” food on the bank of a river.

wandering highly populated urban areas across the United States—maybe in your town.

When asked during a press conference on Sept. 24 whether U.S. immigration officials had bothered to test, for instance, over 12,000 immigrants for Covid-19 before releasing them into U.S. communities, Homeland Security Secretary Alejandro Mayorkas confirmed that U.S. authorities never tested anyone.

“We did not test that population of individuals,” Mayorkas told reporters. “We do not know. I do not know. I should say, if I may be perfectly accurate, I do not know if anyone was sick with Covid. We

certainly had some people get sick, not with Covid to my knowledge, and we addressed their illnesses.”

TARGETING THE ‘UNVACCINATED’

Meanwhile, the mainstream media was gleefully reporting that hundreds of Americans had been fired from already taxed hospitals around the U.S. because these healthcare workers had refused the Covid job. In addition, vaccine mandates have been ramped up in major cities across the U.S. In New York City, the new laws there led to three tourists getting arrested on Sept. 16 after a brawl broke out in a restaurant because the hostess told them they could not enter without proof of vaccination.

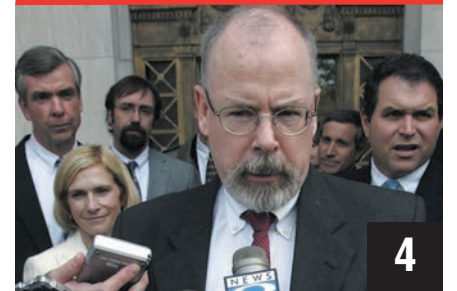

On a national level, the Biden administration has advocated for vaccine mandates, going so far as to institute a new occupational safety rule that requires vaccine mandates or weekly testing for companies with over 100 employees. Biden has also instituted mandatory vaccinations for the military and for all federal workers.

AT WAR WITH AMERICAN PEOPLE

But when it comes to illegal immigration, Biden administration officials just shrug their shoulders when asked about limiting illegal immigration into the U.S. during a pandemic and common-sense testing to make sure that tens of thousands of Covid-positive immigrants are not released into America’s cities.

Democrats wonder why Donald Trump is still so popular. Trump, and others with his candor, have the decency to speak honestly and openly about the glaring hypocrisy of politicians, while the media helps gaslight the country. There was no “whipping” on the border. Immigrants are not being “terrorized.” It is just the opposite. It is the American people who are being terrorized and have become Biden’s convenient whipping boys when his party’s policies implode. ★
