Permanent Record

NEW! Edward Snowden, the man who risked everything to expose the U.S. government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, 29-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the U.S. government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on Earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and the internet's conscience. Hardback, 352 pages, \$30.

The Trayvon Hoax: Unmasking the Witness Fraud that Divided America

NEW! By examining Trayvon Martin's 750-page cell phone records, Joel Gilbert discovers that the key witness for the prosecution of George Zimmerman, the plus-sized 18-year-old Rachel Jeantel, was a fraud. It was, in fact, a different girl who was on the phone with Trayvon just before he was shot. She was the 16-year-old named Diamond whose recorded conversation with attorney Benjamin Crump ignited the public, swayed

President Barack Obama, and provoked the nation's media to demand Zimmerman's arrest. Gilbert's painstaking research takes him through the high schools of Miami, into the alleys of Little Haiti, and finally to Florida State University where he finds Trayvon's real girlfriend, the real phone witness, Diamond Eugene. Gilbert confirms his revelations with forensic handwriting analysis and DNA testing. After obtaining unredacted court documents and reading vast social media archives, Gilbert then reconstructs the true story of Martin's troubled teenage life and tragic death. Softcover, 272 pages, \$17.

Chaos: Charles Manson, the CIA and the Secret History of the Sixties

NEW! By Tom O'Neill and Dan Piepenbring. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the Manson murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi—prosecutor of the Manson Family and author of *Helter Skelter*—turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Charles Manson's real friends in Hollywood? How far would they go to hide their ties to drugs and prostitution? Why didn't law enforcement act on the many chances it had to stop him? And how did Manson—an illiterate ex-con—turn a group of peaceful hippies into remorseless killers? Hardback, 528 pages, \$30.

The Articles of Confederation Explained: A Clause-by-Clause Study of America's First Constitution

NEW! In this important primer, award-winning historian Col. Lochlainn Seabrook takes an in-depth look at the 13 Articles of Confederation, first formulated in 1777. The complete and original text of each article is provided, along with a clear and simple explanation describing its meaning and true purpose. Also included is a list of the 10 presidents of the U.S. Confederacy, who served, according to specifications laid out in Article Nine, between the years 1779 and 1789. Discover for yourself why some of America's greatest thinkers—such as the author's cousin Patrick Henry—embraced the Articles of Confederation and argued against the Constitution and against a more powerful central government. Softcover, 48 pages, \$10.

The Death of the West: How Dying Populations and Immigrant Invasions Imperil Our Country

NEW! The national bestseller that shocked the nation, Pat Buchanan's *The Death of the West* is an unflinching look at the increasing decline in Western culture and power. *The Death of the West* details how a civilization, culture, and moral order are passing away and foresees a new world order that has terrifying implications for our freedom, our faith, and the preeminence of American democracy. *The Death of the West* is a timely, provocative study that asks the question that quietly troubles millions: Is the America we grew up in gone forever? Hardback, 496 pages, \$25.

The True Story of the Bilderberg Group

NEW! Delving into a world once shrouded in complete mystery and impenetrable security, this investigative gem from Daniel Estulin provides a fascinating account of the annual meetings of the world's most powerful people—the Bilderberg Group. Since its inception in 1954 at the Bilderberg Hotel in the small Dutch town of Oosterbeek, the Bilderberg Group has been comprised of European prime ministers, American presidents, and the wealthiest CEOs from across the world, all coming together to discuss the economic and political future of humanity—and how they can profit from global events. The working press has never been allowed to attend, nor have statements ever been released on the attendees' conclusions or discussions, which have ramifications for the citizens of the world. Using methods that resemble the spy tactics of the Cold War—and in several instances putting his own life on the line—the author did what no one else besides AFP's Jim Tucker has managed to achieve: He learned what was being said behind the closed doors of the opulent hotels and made it available to the public. This second edition includes an entirely new chapter and updated information on topics such as an earlier attempt to break up Canada and the portents of the North American Union. Softcover, 416 pages, large photo and insider document section, indexed. \$25.

The Tavistock Institute: Social Engineering the Masses

NEW! The Tavistock Institute, in England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book by Daniel Estulin posits that it is the world's center for mass brainwashing and social engineering operations. It grew from a humble beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and, in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, Tavistock has a large reach. Estulin says this conspiracy is real, who is behind it, what its final objectives are, and how we can stop them. Softcover, 239 pages, \$25.

Justice on Trial: The Kavanaugh Confirmation

NEW! The Supreme Court has become the arbiter of our nation's most vexing and divisive disputes. With the stakes of each vacancy incalculably high, the incentive to utterly destroy a nominee is nearly irresistible. The next time a nomination promises to change the balance of the Supreme Court, the authors warn, the confirmation fight will be even uglier than Brett Kavanaugh's. A good judge might just accept a nomination to the Supreme Court in the naïve belief that what happened to Kavanaugh won't happen to him because he, too, is a good person. But it can happen, it does happen, and it just happened. The question is whether America will let it happen again. In this definitive deep dive into the confirmation of Supreme Court Justice Brett Kavanaugh, two women with extraordinary behind-the-scenes access—*The Federalist* senior editor Mollie Hemingway and Judicial Crisis Network senior counsel Carrie Severino—reveal what really happened and explore what the bitterly divisive hearings mean for the future of the Court and the battle for the soul of America. Hardback, 256 pages, \$27.

George Orwell's Classic: 1984

NEW! Here's the classic book that many reference but few have actually read! A chilling portrait of a totalitarian society under the ever-watchful gaze of Big Brother, where love, privacy, and individuality are banned. The year 1984 has come and gone, but George Orwell's nightmare vision of the world we have become is timelier than ever. *1984* is the great modern classic of a "negative utopia"—a startlingly original and haunting novel that creates an imaginary world that is completely convincing. At the time it was written, many people chuckled, not believing that such a world could ever come to be from the world in which they lived. Today, it is one of the most quoted books in history simply because the vivid yet fictional descriptions Orwell described back in 1948 have become disturbingly true: a gray, totalitarian world dominated by Big Brother and its vast network of agents, including the Thought Police, a world in which news is manufactured according to the authorities, and people live tepid and fearful lives. Winston Smith, the hero with no heroic qualities, longs only for truth and decency.

But living in a social system in which privacy does not exist and where those with unorthodox ideas are brainwashed, tortured or killed, he knows there is no hope. Softcover, large-print edition, 400 pages, \$15.

Crimes & Cover-Ups in American Politics 1776-1963: The History They Didn't Teach You in School

NEW! By Donald Jeffries. Foreword by Dr. Ron Paul. For far too long, American history has been left in the unreliable hands of those who author Donald Jeffries calls the court historians. *Crimes and Cover-ups in American Politics 1776-1963* fights back by scrutinizing the accepted history of everything from the American War of Independence to the establishment defamation of Jefferson and the other Founding Fathers, the Civil War, the Lincoln assassination, both World Wars, U.S. government experimentation on prisoners, mental patients, innocent children and whole populated areas, the Lindbergh baby kidnapping and more. Secular saints like Lincoln, Teddy Roosevelt, and FDR are examined in a truthful but critical way. Jeffries spares no one and nothing in this explosive new book. The atrocities of Union troops during the Civil War, and Allied troops during World War II, are documented in detail. The Nuremberg Trials are presented as the antithesis of justice. Jeffries demonstrates that crimes, corruption, and conspiracies didn't start with the assassination of President John F. Kennedy. Hardback, 406 pages, \$25.

The Deep State Prophecy and the Last Trump

NEW! This book is about the gathering of missing pieces to a puzzle extracted from the annals of time. It is a picture painted from the heavens. History exposes hidden pieces to a great prophetic puzzle. The fog of religious doctrine long shrouding short-sighted minds has lifted. Men can see clearly now, as long-standing prophetic theories are exposed by the purifying light of the real facts. New York City is the story world of the great intrigue and holds the clues to a remarkable tale. Why? Because NYC is the citadel of world commerce, but, most importantly, it is the residence of the Great Beast—the United Nations, the nerve center for the globalization of Earth. Softcover, 281 pages, \$19.

QAnon: An Invitation to the Great Awakening

NEW! You may only be vaguely aware of QAnon or “Q,” if at all. However, you will want to learn about the QAnon movement and the battle that is being waged to protect us all from the Deep State. Evil is being tried and brought to justice in federal courts and military tribunals today. Criminally corrupt government leaders, celebrities, religious leaders, media figures, and corporate heads will be tried and punished for crimes involving treason, human trafficking, and unspeakable perversions. Here’s the history of an anonymous poster on free speech websites and how he (or perhaps they) built a following of millions. With an insider’s knowledge of the battle plan and “Q”-level military intelligence clearance, QAnon’s communications are often cryptic and coded. This book was written by 12 “Anons,” anonymous “Q” followers, decoders and citizen journalists. They each know a great deal about QAnon, each bringing their own unique perspective and experience. Together they give you an overview that may encourage you to learn more. The one thing they are all convinced of: QAnon is not only real, but an insider with White House connections. Softcover, 270 pages, \$25.

Deep State Target: How I Got Caught in the Crosshairs of the Plot to Bring Down President Trump

NEW! By George Papadopoulos. *Deep State Target* is the only firsthand account that proves the attempted sabotage of Donald Trump’s presidential campaign by American and international intelligence services. As he explains in *Deep State Target*, there was an intricate set-up at play, and it was neither Trump nor the Russians pulling the strings. American and allied intelligence services set out to destroy a Trump presidency before it even started. Papadopoulos encountered a rogues’ gallery of infamous figures employed by agents from the U.S., Britain, and Australia. Here, he gives the play-by-play of how operatives like Professor Joseph Mifsud, Sergei Millian, Alexander Downer, and Stefan Halper worked to invent a Russian conspiracy that would irreparably damage the Trump administration. Hardback, 288 pages, \$29.

Hate Crime Hoax: How the Left Is Selling a Fake Race War

NEW! If you believe the news, today’s America is plagued by an epidemic of violent hate crimes. But is that really true? In *Hate Crime Hoax*, Professor Wilfred Reilly examines over 100 widely publicized incidents of so-called hate crimes that never actually happened. With a critical eye and attention to detail, Reilly debunks these fabricated incidents—many of them alleged to have happened on college campuses—and explores why so many Americans are driven to fake hate crimes. We’re not experiencing an epidemic of hate crimes, Reilly concludes, but we might be experiencing an unprecedented epidemic of hate crime hoaxes. Hardback, 256 pages, \$29.

The Coddling of the American Mind

NEW! Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising—on campus as well as nationally. How did this happen? Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education. The authors investigate the many social trends that have intersected to promote the spread of these untruths. They examine changes on campus, the corporatization of universities and new ideas about identity and justice. Hardback, 352 pages, \$28.

Ten Myths About Israel

NEW! In this groundbreaking book, Israeli historian Ilan Pappé examines the most contested ideas concerning the origins and identity of the state of Israel. The “10 myths” that Pappé explores—repeated endlessly in the media, enforced by the military, accepted without question by the world’s governments—reinforce the regional status quo. He explores the claim that Palestine was an empty land at the time of the Balfour Declaration, as well as the formation of Zionism and its role in the early decades of nation-building. He asks whether the Palestinians voluntarily left their homeland in 1948, and whether June 1967 was a war of “no choice.” Pappé explains why the two-state solution isn’t viable. Softcover, 192 pages, \$16.

The Deep State: How an Army of Bureaucrats Protected Obama and Is Working to Destroy Trump

NEW! Former congressman and current Fox News contributor Jason Chaffetz explains how we ended up with a politicized federal bureaucracy that actively works to promote the Democrat Party agenda and undermine Donald Trump. The liberal media loves to characterize the Obama years as free of scandal. They pretend this is true because virtually every office in the executive branch worked to withhold evidence of wrongdoing, silence witness testimony, destroy federal records, classify embarrassing information, and retaliate against truth tellers. Yet these same tight-lipped lifers leaked like a sieve once President Trump was sworn in, freely promoting the illusion that everything he does is the new Watergate. As chairman of the House Oversight Committee, Chaffetz was the tip of the spear challenging the Deep State and trying to hold them accountable. This book helps the concerned citizen understand what must be done—so they can demand real change. Hardback, 256 pages, \$29.

On Western Terrorism

NEW! World-renowned intellectual Noam Chomsky discusses Western power and propaganda with filmmaker and investigative journalist Andre Vltchek. Colonialism, imperial control, propaganda, the Arab Spring, and drone warfare are discussed, resulting in a powerful critique of the legacy of colonialism, touching upon many countries including Syria, Nicaragua, Cuba, China, Chile, and Turkey. Updated with a new design and foreword. This book remains an influential and powerful critique of the West’s role in the world, inspiring all who read it to think independently and critically. Softcover, 208 pages, \$20.

Forsaken But Not Forgotten: America's Most Shameful National Secret Revealed

Between the Russian civil war, World War II, the Korean War, Vietnam and the Cold War, as many as 30,000 American soldiers, sailors, Marines, airmen, and civilians were knowingly abandoned by this country's leaders. Inside *Forsaken But Not Forgotten*, longtime author and researcher Philip Rife presents the government's rationale for abandoning so many of America's military men behind enemy lines. Softcover, 89 pages, \$15.

Pale Horse Rider: William Cooper, the Rise of Conspiracy, and the Fall of Trust in America

A former U.S. naval intelligence worker, Milton William Cooper published his manifesto *Behold a Pale Horse* in 1991. Since then it has gone on to sell hundreds of thousands of copies. According to *Behold a Pale Horse*, JFK was assassinated by his driver, AIDS is a government conspiracy, and the Illuminati is secretly involved with the U.S. government to manage relationships with extraterrestrials. Cooper died in a shootout with Apache County sheriffs deputies in 2001, two months after September 11, the year in which he had predicted catastrophe. By journalist Mark Jacobson. Hardback, 384 pages, \$27.

Ship of Fools: How a Selfish Ruling Class Is Bringing America to the Brink of Revolution

Tucker Carlson tells the truth about the new American elites, a group whose power and wealth has grown beyond imagination even as the rest of the country has withered. The people who run America now barely interact with it. They fly on their own planes, ski on their own mountains, and watch sporting events in sky boxes. They have total contempt for you. Traditional liberals are gone. The hand-wringers who worried about whales and defended free speech have been replaced by globalists who hide their hard-edged economic agenda behind the smokescreen of identity politics. They'll outsource your job while lecturing you about transgender bathrooms. But Carlson offers a plan to put the country back on course. Hardback, 256 pages, \$28

Secret Empires: How the American Political Class Hides Corruption and Enriches Family and Friends

Peter Schweizer explains how a new corruption has taken hold, involving larger sums of money than ever before. Stuffing money into a freezer has morphed into multibillion-dollar equity deals done in the dark corners of the world. An American bank opening in China would be prohibited by U.S. law from hiring family members of top Chinese politicians. A Chinese bank opening in America can hire anyone it wants. It can even invite the friends and families of U.S. politicians to invest in can't-lose deals. Donald Trump's children have made front page-news for their dicey transactions. The media has ignored the questionable deals made by those close to Obama, Biden, Kerry, and others who have been in the game much longer. Hardback, 318 pages, \$29.

Strange Company: Military Encounters with UFOs in WWII

By Keith Chester. *Strange Company* is the first in-depth account of unconventional aircraft observed and reported by the military during World War II. It includes the reactions by military commands, their viewpoints, and theories as they struggled to make sense of the observations. *Strange Company* presents one of the greatest wartime mysteries, one that has been shrouded in ignorance for more than 60 years. And it suggests that while an immense 20th-century war was raging on Earth, there appeared to be something, from somewhere else watching us. Softcover, 320 pages, \$18.

Hidden History: An Exposé of Modern Crimes, Conspiracies, and Cover-Ups

In *Hidden History*, you will see the amount of effort that our government has dedicated to covering up the truth. Starting with the assassination of JFK, author Don Jeffries chronicles the issues that have plagued our country's history. Whether it is the assassinations of MLK and RFK, Iran-Contra, the OKC bombing, TWA Flight 800, vote fraud, or 9/11, every major disaster or war that we've witnessed has been distorted. Jeffries also delves into a host of other important topics. So get ready to be awed by how much has been hidden by our leaders over the past 50 years. Features a new introduction by Roger Stone. Softcover, 392 pages, \$23.

Iraq and the Politics of Oil: An Insider's Perspective

By Gary Vogler. *Iraq and the Politics of Oil* is a fascinating behind-the-scenes account of the role of the U.S. government in the Iraqi oil sector since 2003. Vogler describes the prewar oil planning and the important decisions made during hostilities to get Iraqi oil flowing months ahead of schedule. He reveals how, amid the instability of 2006, the fixing of the Baiji Refinery contributed significantly to the success of the oil sector in the Sunni part of northern Iraq during and after the surge. Vogler gives us an expert insider's view of the largest oilfield auctions in the history of the international oil industry and massive increases in oil production. But under the successes chronicled here, a darker political narrative emerges, one that reaches back to the decision to go to war with Iraq. Hardback, 318 pages, \$29.

The Diversity Delusion: How Race and Gender Pandering Undermine Culture

America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined human values, fueled intolerance, and widened divisions in our larger culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges these orthodoxies is silenced. Heather MacDonald calls for a return to the classical liberal pursuits of open-minded inquiry and expression. Hardback, 288 pages, \$29.

Filthy Rich: The Billionaire's Sex Scandal —The Shocking True Story of Jeff Epstein

By James Patterson. Jeff Epstein rose from humble origins to the rarefied heights of New York City's financial elite. A college dropout with an instinct for numbers—and for people—Epstein amassed his wealth through a combination of access and skill—and possibly even blackmail. But even after he had it all, Epstein wanted more. And that unceasing desire—especially a perverse taste for young girls—resulted in his stunning fall from grace. From

Epstein himself, to the girls he employed as masseuses at his home, to the cops investigating the appalling charges against him, Patterson examines all sides of a case that scandalized one of America's richest communities. Epstein's "little black book" contained contact numbers for Hollywood stars and powerful people like Bill Clinton, Tony Blair, Prince Andrew, Kevin Spacey, Dustin Hoffman, Michael Bloomberg and many more. Even Donald Trump had connections to Jeff Epstein. Currently, Epstein's "madam" is on the run. Softcover, 304 pages, \$28.

***The Wandering Who?*
An Examination of Jewish Identity Politics**

Here is Gilad Atzmon's exposé of Jewish identity politics. Jewish identity is tied up with some of the most difficult and contentious issues of today, as any perusal of a newspaper will reveal immediately. Atzmon examines the tribal aspects embedded in Jewish secular discourse, both Zionist and anti-Zionist; the allegation that the holocaust has been turned into a religion; the meaning of "history" and "time" within the Jewish political discourse; and the anti-Gentile ideologies of secular Judaism. Softcover, 211 pages, \$18.

Let Trump Be Trump: The Inside Story

Here is the ultimate behind-the-scenes account of how Trump became president. Trump was a candidate—and now a president—like none who have come before. His startling rise to the White House is the most shocking political tale in the history of our republic. Much has been written about this event, but all of those words come from authors outside the orbit of Trump. Written by two of Trump's closest campaign advisors, *Let Trump Be Trump* is the eyewitness account of the stories behind the headlines. Hear about Spicer, Preibus, Bannon, and more. Hardback, 296 pages, \$27.

***It's Not Easy Being God:
The Real George Soros***

In this collection of essays, Joy Tiz, author of *Obamanutz: A Cult Leader Takes the White House*, provides an unnerving analysis of the man who thinks he's God—billionaire radical leftist and social engineer George Soros. This collection of exposés unmasks George Soros for what he is: one of the most detrimental forces on the planet, a man who may have shaped our world more than any man in two millennia. What is his personal agenda? What is his vision of the New World Order? What was his relationship with Barack Obama? Where is he dumping his money? Who are his allies? Who are his enemies? Softcover, 108 pages, \$16.

***Rogue Spooks:
The Intelligence War on Trump***

Donald Trump's time in office has been roiled by allegations of treasonous contacts between his campaign team and the Kremlin to rig the election. These outrageous charges surfaced in the notorious "Trump Dossier," an unverified document of suspect provenance, full of wild accusations. This dossier—little more than gossip and innuendo—was compiled by Christopher Steele, a former British intelligence agent who teamed up with the FBI and anti-Trump partisans. Hillary supporters paid for Steele's work. When no news media would publish the unverified dossier, the ex-spook enlisted the help of a former UK ambassador to Russia, who arranged for a former assistant secretary of state to get it to Sen. John McCain, hoping he would bring it to FBI Director James Comey. He did just that. Here are all the details. Hardback, 288 pages, \$28.

All Out War: The Plot to Destroy Trump

With ferocity not seen since the Civil War, the Washington establishment and the radical Left are joining forces in an attempted coup d'état to overturn the will of the people and return power to the political and media elites who have never been more unhinged. Investigative reporter and national best-selling author Edward Klein reveals how the plot to destroy Trump was initiated in the Obama White House; two exclusive FBI reports that prove the existence of "the Deep State" working against the Trump agenda, warns of ISIS ties to the anti-Trump "resistance," and highlight the danger of domestic terrorism from the anti-Trump radicals; the scandal you don't yet know about. Hardback, 256 pages, \$29.

***Truth Jihad: My Epic Struggle
Against the 9/11 Big Lie***

Millions of people now know the main arguments for the thesis 9/11 was an inside job, starting from the controlled demolition of the World Trade Center buildings No. 1, 2 and 7. Dr. Kevin Barrett has written a gospel for a new generation of post-9/11 skeptics. This ebullient book strikes a confident keynote for this sudden coming of age. It is for millions of disenfranchised 9/11 truthers—and for the uneasy majority who sense that America is no longer on the right track. Softcover, 222 pages, \$12.

***In the Shadows of the American Century:
The Rise and Decline of U.S. Global Power***

In a completely original analysis, prize-winning historian Alfred W. McCoy explores America's rise as a world power—from the 1890s through the Cold War—and its

bid to extend its hegemony deep into the 21st century through a fusion of cyberwar, space warfare, trade pacts, and military alliances. McCoy then analyzes the marquee instruments of U.S. hegemony—covert intervention, client elites, psychological torture, and worldwide surveillance. Peeling back layers of secrecy, McCoy exposes a military and economic battle for global domination fought in the shadows, unknown to those outside the highest rungs of power. Can the U.S. extend the "American Century" or will China guide the globe? Softcover, 280 pages, \$18.

An Act of State: The Execution of MLK

In 1968, Martin Luther King was in Memphis supporting a worker strike. By nightfall, army snipers were in position, military officers were on a nearby roof with cameras, and Lloyd Jowers had been paid to remove the gun after the fatal shot was fired. When the dust had settled, King had been hit and a clean-up operation was set in motion—James Earl Ray was framed, the crime scene destroyed, and witnesses killed. Attorney William Pepper has conducted a 30-year investigation into his assassination. Here are the results of his research. Softcover, 350 pages, \$22.

***Hell's Mirror: Global Empire
of the Illuminati Builders***

These diabolical men and women are doubleminded, and they are building a strange two-faced globalist empire. Here you will discover the inner secrets of these builders. You will see their architectural creations and understand how their sinister projects—dark buildings, monuments, statues, and parks—are all part of Satan's endtime system. You will find out about the obituary cult, an underground group of super-rich charlatans bent on destroying the old world. Softcover, 224 pages, 8.5" x 11" format, illustrated, \$28.

Survival of the Richest—How the Disparity of Wealth Created the Greatest Conspiracy of All

Survival of the Richest scrutinizes how the collective wealth of America has been channeled from the poor and middle class into the hands of a few elitists. American industry has been gutted, with wages and benefits stagnant or reduced, thanks to disastrous trade deals and outsourcing. The Occupy Wall Street movement and the presidential campaigns of both Sanders and Trump, reveal how more and more struggling people understand that the system is rigged against them. While Americans have been trained to direct their scorn at welfare recipients and the poor in general, a tiny handful of plutocratic elites have profited on an unfathomable scale through corporate welfare and other perks. Hardback, 280 pages, \$25.

No Campus for White Men: The Transformation of Higher Education Into Hateful Indoctrination

No Campus for White Men shines a bright light on the growing obsession with diversity, victimization, and identity politics on today's college campuses, and shows how it is creating a hostile and fearful atmosphere that can only lead to greater polarization in society. For decades, colleges have pursued policies favoring students based not on merit but on race, gender, and sexual orientation. The negative effects of this culture can't be denied. By Scott Greer. Softcover, 240 pages, \$20.

No Go Zones: How Sharia Law Is Coming to a Neighborhood Near You

While the politically correct try to deny the existence of No Go Zones, the shocking reality of these zones can be attested to by its victims. Raheem Kassam reveals areas that Western governments, including the U.S., don't want to admit exist. Kassam takes you into Islamic areas you might not even know existed—whole city districts from San Bernardino to Hamtramck, Michigan (essentially an Islamic colony in the Midwest); from Malmo, Sweden, to the heart of London, England—where infidels are unwelcome. Softcover, 256 pages, \$20.

The Putin Interviews

Filmmaker Oliver Stone's interviews with Russian president Vladimir Putin are transcribed here. They freely talk about issues important to U.S.-Russia relations. Stone was able to secure unprecedented access to Putin over a two-year span—never before has the Russian leader spoken at such length with a Western interviewer. No topics are off limits in the interviews, which first occurred during Stone's trips to meet with NSA whistleblower Edward Snowden in Moscow and most recently after the election of Trump. Prodded by Stone, Putin discusses relations between the U.S. and Russia, allegations of interference in the U.S. election, and Russia's involvement in Syria, Ukraine, etc. Putin speaks about his rise to power and details his relationships with Clinton, Bush, Obama, and Trump. The exchanges are personal, provocative, and at times surreal. Softcover, 288 pages, \$20.

Corporate Ties That Bind: An Examination of Corporate Manipulation and Vested Interest in Public Health

Edited by Martin J. Walker. In the 21st century, corporations have worked their way into government and, as they become increasingly more powerful, arguments about their danger have become increasingly black and white. With corporations at the center of public health and environmental issues, everything chemical or technological is good, everything natural is bad; scientists who are funded by corporations are right and those who are independent are invariably wrong. Here is a collection of essays written by influential professionals from around the world that addresses how the growth of corporatism is destroying democracy and personal choice. Whether addressing asbestos, radiation, PCBs or vaccine regulation, the essays here address the dangers of trusting corporations that put profits before health. Hardback, 592 pages, \$35.

America's "War on Terrorism"

Michel Chossudovsky blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by Islamic terrorists. This expanded edition, which includes 12 new chapters, focuses on the use of 9/11 as a pretext for the invasion and illegal occupation of Iraq, the militarization of justice and law enforcement and the repeal of democracy. According to Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The war on terrorism is a war of conquest. Globalization is the final march to the New World Order, dominated by Wall Street and the Pentagon. Softcover, 387 pages, \$25.

A Century of War: Anglo-American Oil Politics in the 20th Century

"Control the oil and you control entire nations," said famed U.S. political advisor and longtime Deep State operative Henry Kissinger. Oil is an instrument of world domination in the grip of the Anglo-American empire. This book is a gripping account of the murky world of the Anglo-American oil industry and its hidden role in world politics. F. William Engdahl takes the reader through the history of how seven giant oil companies—five American and two British—developed a controlling grip on the world's economy unprecedented in history. This is no ordinary history of oil. It is a history of global geopolitics—how control of strategic geographical pivot regions helps control in large part the world economy. Softcover, 352 pages, \$25.

The Plot to Scapegoat Russia: How the CIA and the Deep State Have Conspired to Vilify Putin

By Dan Kovalik, introduction by David Talbot. Since 1945, the U.S. has justified numerous wars based on the pretext of the Russian Red Menace, even after the Soviet Union collapsed in 1991. In fact, the two biggest post-war American conflicts, the Korean and Vietnam wars, were not, as has been claimed, about stopping Soviet expansion, but about maintaining old colonial relationships. Similarly, many lesser interventions and conflicts, such as those in Latin America, were also based upon an alleged Soviet threat, which was nonexistent. Now the specter of a Russian Menace has been raised again. *The Plot to Scapegoat Russia* examines the proliferation of stories, from American state actors, manipulating the threat of Russia, and the long history of which this episode is but the latest chapter. Softcover, 240 pages, \$19.

Gods of Money: Wall Street & the Death of the American Century

By F. William Engdahl. This is a book about power and about an extraordinarily wealthy elite which has wielded unprecedented power, not for the good, but rather for the enhancement of their own private position. This book tracks the evolution of the power amassed by a tiny group of men who have regarded themselves, quite literally, as gods—the Gods of Money. Their agenda has included assassinations of two of America’s most popular presidents; involvement of the United States against the public will in two world wars; and detonation of the world’s most destructive weapon, the atomic bomb, on Japanese civilians. It has included scores of regional wars, political assassinations, coups, and systematic corruption of the body politic. This book reveals in an unusual and surprising manner how this powerful elite has systematically set out to literally control the entire world. Softcover, 390 pages, \$25.

9/11: Made in Israel—The Plot Against America

What this Victor Thorn book makes clear, and what many 9/11 “truthers” don’t know, is that a massive deception and cover-up exists not only in the mainstream media, but in the so-called 9/11 truth movement as well. It is true that 9/11 was an “inside job,” and criminal elements within the U.S. government were undoubtedly involved. But 9/11 was much more. It was an “outside job” also, ultimately facilitated by multiple, well-coordinated Zionist and Jewish factions. Who benefited from the attacks on 9/11? Israeli Prime Minister Benjamin Netanyahu said, “We [Israelis] are benefiting from one thing, and

that is the attack on the Twin Towers and Pentagon.” Considering the fact that the rogue state of Israel has a prior criminal record of perpetrating just such a crime—the June 8, 1967 attack on the USS *Liberty*—the line of questioning in this case is clear: “Was 9/11 made in Israel?” Softcover, 138 pages, \$15.

9/11 Evil: Israel’s Central Role in the September 11, 2001 Terrorist Attack

By Victor Thorn. This is the book that many influential 9/11 organizations and the Anti-Defamation League don’t want you to read or talk about. This is the book that Deep State insiders in the U.S. government prefer you forget all about. They describe it as “preposterous,” simply because the evidence compiled points a finger at Israel as a major player in the Sept. 11, 2001 terrorist attacks on America. But facts are facts; we do not control where they lead. We already know why 9/11 was done, and that the WTC towers were demolished. But most everyone wants to shy away from *who* ultimately did 9/11. In the author’s opinion, the intelligence services of the nation of Israel played a central role in the 9/11 terrorist attack and he presents his body of evidence in the pages of *9/11 Evil*. Softcover, 123 pages, \$15.

Remember the Liberty! Almost Sunk by Treason on the High Seas

On the warm, sunny-bright day of June 8, 1967, starting at about 6:00 a.m., at least 12 Israeli aircraft of different types began surveilling the USS *Liberty*, some of which were only 100 feet or less in altitude, apparently to photograph her for later targeting purposes. The precision of the later attack could only have been accomplished through such pre-planning, specifically identifying the priority targets, starting with the gun mounts to render the ship defenseless, followed by all of the 45 different radio antennae and related transmitting equipment. When the attack was over, 34 men were dead and 174 injured, some near death. Unlike every other book written about the attack—none of which provides a satisfactory explanation of what really caused it—*Remember the Liberty!* examines it in complete context of how it was positioned there by Johnson himself, for the very purpose of being attacked, and sunk. Softcover, 480 pages, \$20.

Shall Not Be Infringed: The New Assaults on Your Second Amendment

David Keene and Thomas Mason analyze the decades-long campaign to restrict or even abolish the Second Amendment rights of Americans. They outline and examine the ongoing battle fought in the courts, Congress, and state legislatures across the country as well as in the

media and even the UN. Although the U.S. Supreme Court ruled the Second Amendment guarantees an individual right to “keep and bear arms,” various political leaders have promised to challenge this constitutional freedom, even vowing to make it a litmus test for Supreme Court nominees. Also addresses preventing crime, anti-gun proposals to restrict the fundamental gun ownership rights of Americans etc. Softcover, 206 pages, \$23.

The Convenient Terrorist: Two Whistleblowers’ Stories of Torture, Terror, Secret Wars, and CIA Lies

The Convenient Terrorist is the definitive inside account of the capture, torture, and detention of Abu Zubaydah, the first “high-value target” captured by the CIA after 9/11. But was Abu Zubaydah, who is still being indefinitely held by the United States under shadowy circumstances, the blue-ribbon capture that the Bush White House claimed he was? Authors John Kiriakou, who led the capture of Zubaydah, and Joseph Hickman, who took custody of him at Guantanamo, draw a far more complex and intriguing portrait of the al Qaeda “mastermind” who became a symbol of torture and the “dark side” of U.S. security. From a one-time American collaborator to a poster boy for waterboarding, Abu Zubaydah became a “convenient terrorist”—a way for U.S. authorities to sell their “War on Terror” to the American people. Softcover, 160 pages, \$15.

The Controllers: Secret Rulers of the World

Throughout history, there have always been powerful people who work secretly behind the scenes to advance their own objectives, often to the detriment of the public. A few thousand wealthy and influential people who operate secretly behind the scenes largely control the world. This book identifies them, exposes some of their past activities, and sets forth ways of dealing with them. A system of global control, referred to as the “New World Order” by President George H.W. Bush, is in effect today. Insiders are promoting a one-world government, a one-world economy and a one-world religion, with themselves in charge of it all. A growing number of people are aware of what is going on, and are becoming increasingly resistant to the idea of a global socialistic dictatorship. This book seeks to add to that awareness. Softcover, 505 pages, \$26.

Against Our Better Judgment: The Hidden History of How the U.S. Was Used to Create Israel

Soon after WWII, Dean Acheson warned that creating Israel on land already inhabited by Palestinians would imperil American interests in the region. Despite warnings, President Truman supported a Jewish state on land primarily inhabited by Muslims and Christians. Few Americans today are aware that U.S. support enabled the creation of the modern state of Israel. Fewer know that U.S. politicians pushed this policy over the forceful objections of experts. These dissenters were bombarded by a massive pro-Israel lobbying effort that ranged from well-funded Zionist organizations to an “elitist secret society” whose members included Zionist Justice Louis Brandeis. Alison Weir provides a clear view of the history of the situation. Softcover, 260 pages, \$18.

Conspiracy Theory in America

Ever since the Warren Commission concluded that a lone gunman assassinated President John F. Kennedy, people who doubt that finding have been widely dismissed as conspiracy theorists, despite credible evidence that right-wing elements in the CIA, FBI, and

Secret Service—and possibly even senior government officials—were involved. Why has suspicion of criminal wrongdoing at the highest levels of government been rejected out of hand as paranoid thinking akin to superstition? *Conspiracy Theory in America* investigates how the Founders’ hard-nosed realism about the likelihood of elite political misconduct—articulated in the Declaration of Independence—has been replaced by today’s blanket condemnation of conspiracy beliefs as ludicrous by their official definition. By Lance deHaven-Smith. Softcover, 272 pages, \$16.

New World Order Assassins

By Victor Thorn. Here are the uncensored facts about the highest-profile murders in world history. *New World Order Assassins* delves into the facts that have been suppressed by official sources and the mainstream media for decades. The truth about Manson and the Son of Sam, the strange Process Church, political activist John Lennon and his many enemies, Princess Diana, Port Arthur, Marilyn Monroe, Mary Pinchot Meyer—JFK’s acid-loving mistress, Kent State, Martin Luther King and Malcolm X, Squeaky Fromme and the Rockefellers, John Hinckley’s high-level connections, Sirhan and RFK and much more. Softcover, 280 pages, \$25.

THE HILLARY (AND BILL) TRILOGY

The Sex Crimes Volume

Part One of the Clinton Trilogy. Bill and Hillary’s meteoric rise to success is chronicled. It’s a carefully plotted path that has led to the White House. But along the way, a series of compromises had to be made, including a pre-arranged marriage, assignments for the CIA, and Hillary’s ultimate role as a “fixer” for her husband’s rapes and sexual harassment. Pulling no punches, investigative journalist Victor Thorn paints a compelling portrait of secrecy, deceit, violence and betrayal that shatters the myth of the Clintons. Softcover, 344 pages, \$30.

The Drugs Volume

Part Two of the Clinton Trilogy. Some of the most damning examples ever put into print of the U.S. government’s crimes and corruption are exposed in glaring detail. Beginning with the Clinton family’s long-standing ties to the notorious Dixie Mafia, this book illustrates how billions of dollars of cocaine, cash and weapons passed through Mena, Arkansas during the 1980s—with the full knowledge of Bill and Hillary—to finance the illegal war in Nicaragua. This CIA-imported coke helped fuel the cocaine epidemic of the 1980s. In short, Bill and Hillary’s Arkansas became a narco-republic, with little banks near Mena laundering more money than the biggest banks in New York City. Softcover, 310 pages, \$30.

The Murder Volume

Part Three of the Clinton Trilogy. Is the Clinton “body count” for real? This question has plagued the former first couple for much of their entire partnership, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. But is it just an urban legend? This volume presents an overwhelming body of evidence that proves that the 110+ people who’ve died under mysterious circumstances—all tied to the Clintons—far surpasses any chance of coincidence. Readers will encounter a grisly world of CIA drug drops, crooked police agencies, notorious coroners and corrupt judges who shield the powerful from prosecution. Softcover, 383 pages, \$30.

Crisis of Character: A White House Secret Service Officer’s Firsthand Experience with Hillary & Bill

Gary J. Byrne served in the Secret Service and was posted right outside President William Jefferson Clinton’s door. In this blockbuster, he spills the beans on Hillary and Bill and their strange behavior. Byrne served in federal law enforcement for nearly 30 years and what he saw in the Clinton White House was shocking: cocaine parties, mistresses, lewd behavior, frantic ranting and raving, screaming matches, denigration of staff, and many more troubling observations. Softcover, 304 pages, \$16.

Frontman: Barack Obama’s Darkest Secrets Revealed

By Victor Thorn. In 2008, Barack Obama became the face of hope and change. Yet lurking behind the scenes was a host of people who long ago selected this man to forward a global agenda. *Frontman* reveals the actual powers behind his throne: Bilderberg plotters, Zionist handlers, global financiers, and Marxist activists. Exposes the cabal of men and women whose goal was (and still is) to radically transform the U.S. To cover their tracks, they carefully hid the life history of Obama from the public. Now that Obama is out of office, his political influence is still being felt in the endeavor he has chosen to pursue: undermining Donald Trump. Here is your chance to inform yourself and your friends about the many inconsistencies in Obama’s meteoric rise and the gaggle of radical people and organizations who orchestrated it. Softcover, 112 pages, \$20.

The Intimidation Game: How the Left Is Silencing Free Speech

From journalist Kim Strassel comes an insightful, alarming look at how the radical Left, once the champion of civil liberties and free speech, is today orchestrating a campaign to bully and frighten Americans out of their free speech rights. *The Intimidation Game* provides a chilling exposé of political scare tactics, including: how *Citizens United* set off a wave of liberal harassment against conservatives, the targeting of tea party groups by the IRS, how states have shut down conservative political activism businesses and websites, and much more. This book shines a light on how liberal governance and the liberal machine ensure varying opinions never reach the public. Softcover, 416 pages, \$18.

Crowning Clinton: Why Hillary Shouldn't Be in the White House

AMERICAN FREE PRESS late corresponding editor Victor Thorn picks up where he left off with his *Hillary (and Bill)* trilogy. In *Crowning Clinton*, Thorn provides groundbreaking information that mainstream media sources only caught up with months or even years afterward, if they had the courage to even touch it at all. Including more than 50 one-on-one interviews with experts, this collection taps into some of the nation's most astute political minds to present a preponderance of evidence as to why Hillary and Bill's return to 1600 Pennsylvania Avenue would be disastrous for America. Softcover, 118 pages, \$12.

The New World Order in Action: Globalization, the Brexit Revolution

The rise of the NWO and the role of the Transnational Elite—the network of the economic and political elites which administers it—are examined. Furthermore, the mythology used by the elites as well as by the globalist “left” is examined. It was the full integration of the left into the new order which has led to its political bankruptcy and the rise of a neo-nationalist movement, embraced by most of the victims of globalization and particularly the working class that used to support the left. The need for a struggle for national and social liberation has become imperative. Softcover, 354 pages, \$18.

Everything They Ever Told Me Was a Lie

By Pat Shannan. This book spans the past half-century and covers the unknown facts about the JFK assassination, the attempt on Ronald Reagan's life, the still-growing Apollo 11 controversy of the 1960s, the forgotten history of money, the odd connection between John Hinckley and the Bush family, the odd case of Arthur Bremer,

James Earl Ray and the MLK assassination, Tim McVeigh's last secrets, the Sept. 11 attacks and the Barack Obama citizenship debate. This book explains from the outset exactly who “they” are and how the mockingbird media allow outrageous lies to meld into false history. Softcover, 280 pages, \$25.

The Bilderbergers: Puppet-Masters of Power

Since 1954, a discrete and select group of wealthy and powerful individuals have attended a private, yearly conference to discuss matters of their choosing. This group represents European and North American elites, as well as new talent and rising stars, from the worlds of politics, business, media, academia, the military and even royalty, and has included household names such as Margaret Thatcher, Henry Kissinger, and Prince Philip. In recent years, their numbers have featured David Cameron, Tony Blair, Angela Merkel, Bill Clinton, and David Rockefeller. They are “the Bilderbergers,” named for the hotel in the Netherlands where their secret gatherings were first hosted. Investigative writer Gerhard Wisniewski explores the claims of conspiracy that swirl around the group, revealing names of participants, their agendas, and their goals. Examining records and hidden reports, the author uncovers the true history of the organization. Softcover, 288 pages, \$25.

Jim Tucker's Bilderberg Diary

Late, longtime investigative journalist Jim Tucker lays out his remarkable history of covering Bilderberg (and its Trilateral and CFR allies), infiltrating Bilderberg meetings, procuring their private documents, and working relentlessly to shine the spotlight of public scrutiny on Bilderberg's affairs. Tucker introduces you to the little-known arena of the Bilderberg elite. This volume includes representative lists of Bilderberg membership over the past several years. Includes more than 80 on-the-scene photos of the Bilderbergers in action plus pictures of the author hobnobbing with the likes of Dick Cheney, Gerald Ford, Lady Thatcher plus photo reproductions of actual Bilderberg documents. Softcover, 253 pages, \$25.

Conspireality

By Victor Thorn. Incredibly, in these pages you'll learn how the Patty Hearst kidnapping, a CIA-financed remote viewing project, the Zodiac killings, a barbaric prison experiment and widespread cybernetic mind-control programs can all be tied to one geographic locale in California. By book's end, as readers climb back out of the maze, they realize that, akin to the ongoing myth of “lone nut assassins,” all of these events are interconnected. Softcover, 237 pages, \$25.

They Killed Our President: 63 Reasons to Believe There Was a Conspiracy to Kill JFK

It's been well over half a century since John F. Kennedy was assassinated, and it's time we all knew the facts, theories and myths surrounding the plot to kill JFK. Jesse Ventura, Dick Russell and David Wayne offer a compendium discussing the plot to the murder to the cover-up. This book discusses the most famous of theories, such as the second shooter on the grassy knoll, and also offers recently discovered testimony that shows that elements of the U.S. government were behind the assassination. Softcover, 349 pages, \$30.

The JFK Assassination and the Uncensored Story of the Two Oswalds

On Nov. 20 and 22, while “Lee Harvey Oswald” was working at the Book Depository, he was identified by witnesses at Dobbs House Restaurant, Top Ten Records and the Jiffy Store. He was also identified seated with Jack Ruby some 10 hours after he was jailed! After Officer Tippitt was killed, a wallet was found containing the ID cards of both Lee Harvey Oswald and a man named Alek Hidell, who could have been Lee's twin. When Harvey was arrested 40 minutes later, he was carrying in his wallet the exact same ID cards. Pat Shannan tells the story of the “two Oswalds.” Softcover, 158 pages, \$20.

63 Documents the Government Doesn't Want You to Read

Top investigators Jesse Ventura and Dick Russell walk readers through 47 of the most incriminating programs in 63 formerly classified documents to reveal criminal behavior at the top levels of government and the media. Among the cases discussed are: the CIA's top-secret program to control human behavior; the military plan to hijack airplanes and blame it on Cuban terrorists; the discovery of a secret Afghan archive; deadly healthcare cover-ups; what the Department of Defense knows about our food supply but we don't—and should; and much more. Hardcover, 288 pages, \$27.

American Conspiracies: Lies, Lies and More Lies the Government Tells Us

In this exposé of wrongful acts and cover-ups, Jesse Ventura looks closely at the conspiracy theories that have been presented over the years and separates the fact from the fiction. Ventura says many political murders need to be re-examined. Was the CIA involved in Watergate? Did the GOP steal two elections for Bush? Has all evidence been presented on 9/11? Is the collapse of the financial order and the bailouts by the Fed the biggest conspiracy ever? Softcover, 246 pages, \$17.

The Man Who Killed Kennedy: The Case Against LBJ

Political insider Roger Stone makes a compelling case that Lyndon Johnson had the motive, means and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way onto the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of AG Bobby Kennedy. Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man—not Oswald. Johnson would use power from his connections in Texas, the mafia, and the government to escape his untimely political end and to seize power. Softcover, 480 pages, \$30.

Phantom Flight 93 and Other Astounding 9-11 Mysteries Explored

By Victor Thorn. Flight 93 is the smoking gun that exposes the government's falsehoods once and for all. Starting with physical evidence, it becomes clear that a passenger jetliner could not have possibly crashed in Shanksville where federal officials said it did. Rather, the reality of that fateful morning is much more troublesome, and far more sinister. Also cited in this book are a plethora of lies concerning the cell phone calls, 9/11 passenger list oddities, corrupt officials who assisted the plan, wreckage of the plane found far from the crash site, areas cordoned off by the FBI etc. Softcover, 200 pages, \$20.

The Failure of Laissez Faire Capitalism

Paul Craig Roberts helps us understand the mistakes that are bringing the West to its knees. The 1% have pulled off an economic and political revolution. By offshoring manufacturing and professional jobs, U.S. corporations destroyed the growth of consumer income, the basis of the U.S. economy, leaving the bulk of the population mired in debt. Deregulation was used to concentrate income and wealth in fewer hands and "too big to fail" corporations. Environmental destruction has accelerated as economists refuse to count the exhaustion of nature's resources as a cost. Softcover, 190 pages, \$19.

The DEA Report: Did Israel Have Foreknowledge of the Sept. 11 Attacks?

Details about a massive Israeli espionage operation on U.S. soil during the months preceding the Sept. 11, 2001 tragedy that was exposed by the U.S. Drug Enforcement Administration. Why were Israeli spies trying to infiltrate sensitive American installations around Sept. 11? The report was quickly suppressed after release, but here it is—all redactions removed! Softcover, 8.5 by 11, 60-page reproduction, \$15.

How America Was Lost: From 9/11 to the Police/Warfare State

By Paul Craig Roberts. Few American commentators have cut more clearly through the deepening deceit, hypocrisy and outright criminality that have infested official D.C. since 9/11 than Roberts. His scathing critique sheds much-needed light on the country's impending nightmare—economic collapse, internal repression, ongoing wars, and rising rejection by friends and foes alike. America's fate was sealed when the public and the anti-war movement bought the government's 9/11 conspiracy theory. This defining event of our time, which has launched the U.S. on interminable wars of aggression and a domestic police state, is a taboo topic for investigation in the media. Trillion-dollar wars have created financing problems for D.C.'s deficits, threatening the dollar's role as the world's reserve currency, and putting Social Security and Medicare on the block. Softcover, 465 pages, \$25.

The Neoconservative Threat to World Order: Washington's Perilous War for Hegemony

This stellar collection of Paul Craig Roberts essays explores the extreme dangers in Washington's imposition of vassalage on other countries and Washington's resurrection of distrust among nuclear powers, the very distrust that Reagan and Gorbachev worked to eliminate. The neo-conservatives have become entrenched in successive American administrations, both Republican and Democratic. Their ideology of U.S. global hegemony, the doctrine that no other power will be allowed to arise that could constrain U.S. unilateral action, has become a foundation of U.S. foreign policy and has led to reckless intervention in Ukraine and an irresponsible assault on Russian national interests. These events have impelled Roberts, after an illustrious career in government and journalism, to write this enlightening book. Softcover, 308 pages, \$25.

A Government of Wolves: The Emerging American Police State

John W. Whitehead charts America's transition from a society governed by "we the people" to a police state governed by the strong arm of the law. Whitehead believes that the American people are in grave danger of losing their basic liberties. The simple fact is that the Constitution—and in particular the Bill of Rights—is being undermined on virtually every front. Indeed, everything America was founded upon is being challenged. This book has been hailed by those on the left and right due to its masterful chronicling of America's shift away from the rule of law and the Constitution. Whitehead also offers a call to action. Hardback, 288 pages, \$25.

Battlefield America: The War on the American People

By John Whitehead. Foreword by Ron Paul. Here's the follow-up to his award-winning book *A Government of Wolves*. John W. Whitehead paints a terrifying portrait of a nation at war with itself and on the verge of undermining the basic freedoms guaranteed in the Constitution. Police have been transformed into extensions of the military, towns and cities have become battlefields, and the American people have been turned into enemy combatants, to be spied on, tracked, scanned, frisked, searched, intimidated, invaded, raided, manhandled, censored, silenced, shot at, locked up and denied due process. Yet this police state did not come about overnight. Rather, the evolution has been so subtle that most American citizens are hardly aware. Hardback, indexed, 337 pages, \$25.

Conspiracy Facts: Neocons Unmasked

If you really want to know what is taking place and who is causing it to happen in the 21st century, you need to read this book. It is an exposé of a thousand years of true history never revealed by the controlled major mass media, with over 45 riveting chapters by patriotic authors and independent blogs never before available in book form. Featuring Cushman Cunningham, author, World War II pathfinder and Harvard graduate, this one-of-a-kind volume of true history is augmented by many visuals including maps, graphs, photos, captions and charts that will further educate the readers. Also includes an article penned by Victor Thorn about the 1967 USS *Liberty* attack. This is a book you need to read and pass on to a friend: Neoconservative isn't conservative at all. Its basic tenets rest on a plank of radicalism, perpetual war and uncontrolled debt. It is the movement of the New World Order and, thus, many of its adherents have no loyalty to the United States. Softcover, 351 pages, \$19.

On the Road to American Socialism: A Christian Perspective

By Al Hays, Ph.D. Any prediction of a pending economic or social disaster is often difficult for people to accept if enough evidence is not available to support it. In this case, evidence is plentiful. History teaches that socialism always brings wars, chaos, hunger, poverty, extreme sacrifice and social upheaval. But socialism is always sold as a fair answer to human problems. In this case the evidences show that socialism is alive and well here in America, and has been so for decades, though not always openly visible or recognizable. This book was written to examine each of the goals and intentions of socialism, and how well it has accomplished those goals in America. Softcover, 377 pages, \$25.

America's Racial Powder Keg: How a Violent Dependency State Has Been Created in the Black Community

Compiled and edited by Victor Thorn. After being promised a “post-racial” America by Barack Obama, this nation has instead seen cities set ablaze, anarchy in the streets, police officers assassinated in cold blood and violence directed against innocent whites. Rather than trying to temper this outrageous behavior, Obama and his cronies, including former Attorney General Eric Holder, gave their none-too-subtle nod of approval by associating with greedy race-peddlers like Al Sharpton. Spearheading a grievance industry that's based upon an

overt hatred of whites dating back hundreds of years, Sharpton and company have become fabulously wealthy as their black followers spiral toward destruction. *America's Racial Powder Keg* examines this phenomenon like no mainstream book has the courage to do. Softcover, 149 pages, \$20.

The conclusion: ISIS is Iran-Contra all over again—it is the United States that has kept ISIS going. Softcover, 270 pages, \$20.

GLADIO: NATO'S Dagger at the Heart of Europe

By Richard Cottrell. Wet works, false flags, assassinations, and subversion pin Europe down as a U.S. colony. NATO death squads masquerade as a rear guard against a possible communist takeover, but are in reality a hideous cancer poisoning European democracy. NATO's dirty war projects have included the Italian Strategy of Tension, the Red Brigades and Baader Meinhof/Red Army Faction, the Banco Ambrosiano scandal, the deaths of Italian ex-PM Aldo Moro, banker Roberto Calvi, media magnate Robert Maxwell, Swedish PM Olaf Palme, and “The Umbrella Murder”; also the attempt on Pope John Paul II's life, the sex snare set for British PM Harold Wilson, and the Cyprus partition and genocide. Gladio architect Lyman Lemnitzer is implicated in the 1944 reintroduction of the Mafia into Sicily and the murders of the Kennedy brothers. Covert NATO operations were behind the fall of the Soviet Union, the color revolutions of Eastern Europe and North Africa, and the massacres of August 2011 in Norway and Libya. Softcover, 498 pages, \$25.

The THORN Trilogy

Victor Thorn: During his career, this fearless researcher gored more sacred cows and made more high-profile enemies than any investigative journalist in history. Some of them were very powerful people. These high-level criminals would like nothing more than to see Victor's memory fade into the sunset. But we refuse to let that happen. One of the primary goals of this project was to publish a three-volume book series of over 600 pages long, each book containing about 200 pages of uncensored Victor Thorn writings. Simply called *THORN*, this

amazing collection of old-fashioned, hard-hitting investigative reporting is how we make Hillary and Bill (and every enemy of the truth) stop their celebration and start quaking again at the mention of Victor Thorn. The trilogy came in at 614 pages. Here is a partial table of contents of the subjects covered: The real Benghazi scandal; The Obamacare scam; Scientist killed to hide revolutionary fuel technology; Obama's alternative energy scams; Protesting patriot ranchers speak to Thorn; Continuing mysteries surrounding the 9/11 attacks; The Fukushima power plant disaster; Why George Soros wants to incite a race war; The race hustlers profiting from black-white conflict; Hillary Clinton's incestuous ties to Wall Street; How Hillary silenced Bill's victims; much more. Three softcover volumes, 614 total pages all from the great Victor Thorn. **\$25 per volume OR \$65 for the entire three-volume set. Save \$10.**

Final Judgment Two-Volume Commemorative Edition

In this two-volume book set, late investigative journalist Michael Collins Piper documents that JFK's efforts to prevent Israel from building nuclear weapons of mass destruction played a key role in the conspiracy behind his assassination. Elements of the CIA and organized crime were involved in the JFK conspiracy, but the role of Israel's intelligence agency, the Mossad, was the long-suppressed “missing link” that was finally unveiled in this titanic work. Now in two volumes, this extraordinary work demonstrates beyond any doubt that the Israeli connection to the murder of JFK is the common thread that ties together the whole plot. *Final Judgment: Volume 1* contains the main text of the book plus Mike's amazing photo section (softcover, 425 pages). *Final Judgment: Volume 2* comprises the 10 extremely detailed appendices referenced again and again in the main body of the book (softcover, 374 pages). *Final Judgment Commemorative Edition*: Two volumes, 799 total pages—\$45.
