## NEW UNCENSORED BOOKS FROM AFP

### *Assassinations: The Plots, Politics, and Powers Behind History-Changing Murders*

**NEW!** By Nick Redfern. Exposed are the hidden agendas. You will quickly find yourself immersed in a world that is filled with killings made to seem like suicides, murders that were designed to look like heart attacks or overdoses, and accidents that, in reality, were carefully orchestrated deaths. Did Oswald really kill JFK—or was he the patsy he claimed to be? Was Jack the Ripper a madman or a ruthless secret agent of the British government? Did the first U.S. secretary of defense, James Forrestal, kill himself, or was he pushed to his death? Did Marilyn take her own life or was a contract put out on her? What led to the demise of Danny Casolaro, an investigative journalist who, at the time of his death in 1991, was investigating a powerful cabal known as “The Octopus”? Was Princess Diana the victim of a car accident or a carefully orchestrated plot? Can sound waves and microwaves kill people? Was John Lennon’s murder what it appeared to be? These questions and many more are answered. Softcover, index, bibliography, 120 photos, 448 pages, \$16.

### *COVID-19 and the Agendas to Come, Red-Pilled*

**NEW! BANNED BY AMAZON!** Drawing on statements of numerous scholars from around the world—virologists, epidemiologists, immunologists, pathologists, microbiologists, infectious disease specialists, including Nobel Prize winners, as well as front-line ER physicians and family practice MDs—veteran journalist James Perloff asks hard questions about the global response to Covid-19. Are the virus’s health risks greater than those posed

by lockdowns? What does the science say about masks and social distancing? Why were no lockdowns imposed for previous pandemics? How accurate are the death numbers? Is the virus natural, or could bio-engineering have played a role? Should the world’s population take a Covid vaccine? Why is Bill Gates formulating health policy, even though he has no medical credentials? How might a “second wave” be different? Is the Covid crisis being exploited to push us into a future of mass surveillance, digital IDs and cashless transactions? Find out for yourself! Softcover, 216 pages, \$16.

### *The 2001 Anthrax Deception: The Case for a Domestic Conspiracy*

**NEW!** In 2001, anthrax letter attacks in the United States killed five people and wounded dozens. They were widely blamed on extremist Muslims and their backers and used to support the invasions of Afghanistan and Iraq. They were also used to justify and hasten the passage of the USA Patriot Act, which was being presented to Congress just as the first anthrax victim grew ill. In October 2001, one of the hypotheses that gained ground was that of the Double Perpetrator, the claim that al Qaeda was carrying out the attacks with the support of Iraq. Much evidence was put forth to support this Double Perpetrator theory, but independent scientists soon discovered that the anthrax spores came from a domestic lab in the U.S. serving the military and intelligence communities, not from al Qaeda or Iraq. The FBI then quickly claimed that an individual was responsible for the attacks and began noisily looking for this “lone wolf.” In 2008 the Bureau named Dr. Bruce Ivins of the U.S. Army Medical Institute of Infectious Disease as the “Anthrax Killer.” Although the FBI remains committed to the Ivins hypothesis, the case has been disintegrating ever since it was proposed. Currently, it is held in con-

tempt not merely by scientists who worked with Ivins but by many journalists as well as several U.S. senators. But this raises the question: If Ivins did not commit this crime, who did? Softcover, 189 pages, \$20.

### *In Their Own Words: The Democratic Party's Push for a Communist America*

**NEW!** *In Their Own Words* answers an important question on the minds of many Americans: What is happening inside America’s Democrat Party? During the 1980s, before the collapse of the USSR, Democrat leaders like Bernie Sanders and Bill De Blasio were ardent supporters of Marxist Daniel Ortega and his Nicaraguan revolution. Ortega was allegedly “the man of the people,” intent on forming a socialist government of equality. Today Ortega crushes dissent from the people he “liberated,” joining Nicolas Maduro of Venezuela as just another “elected” dictator who has destroyed his country through the implementation of socialism. But who from the media is questioning the horrendous judgment of Sanders and De Blasio back then, as they actually push the same policies for America? *In Their Own Words* by Terry Turchie and Donagh Bracken shines the light on the insidious nature of socialism as the transformative step toward a “communist utopia.” The problem is that the “utopia” part never happens. This book explains why. Softcover, 390 pages, \$22.

## *Corporate Conspiracies: How Wall Street Took Over Washington*

**NEW!** Some companies know their products will kill, but they do nothing, because it is cheaper to compensate victims than it is to correct the problem. The Pentagon has sent \$1.5 trillion to their corporate buddies for a new fighter jet that is already superfluous. Richard Belzer and David Wayne expose the ways that the capitalist regime has got us under their thumbs—from the mainstream media to the trillions stolen by big banks and mortgage companies to the scams perpetrated by Big Oil and Big Pharma. The one common victim of all that corruption is the U.S. public. This book is guaranteed to make us all think twice about being enslaved. Softcover, 248 pages, \$25.

## *Rose Cherami: Gathering Fallen Petals*

**NEW!** On Nov. 21, 1963, just hours from Dallas, Texas, Rose Cherami was going through heroin withdrawal when she was admitted for treatment. Once admitted, she warned doctors, nurses, and patients of JFK's impending death. She said she was traveling on a drug run from Miami with two men who were planning to kill the president. Soon thereafter, she was dead. Rose's only son, Dr. Michael Marcades, pieces together the fragments of Rose's life to reveal startling truths about the events leading up to the murder. Here is what Rose may have known. Based on true events. Softcover, 412 pages, \$22.

## *Roanoke: Solving the Mystery of the Lost Colony*

**NEW!** November 1587: A report reaches London that Sir Walter Raleigh's expedition, which left England months before to deliver the first English settlers in America, has foundered. On Roanoke Island, off the coast of North Carolina, a tragedy is unfolding. Something has gone very wrong, and the colony—115 men, women, and children—is in trouble. But there will be no rescue. Before help can reach them, all will vanish. In this remarkable example of historical detective work, Lee Miller goes back to the original evidence and offers a fresh solution to the Lost Colony legend. She establishes beyond doubt that the tragedy of the Lost Colony did not begin on the shores of Roanoke but within the walls of Westminster, in the inner circle of Queen Elizabeth's government. As Miller detects, powerful men had reason to want Raleigh's mission to fail. Softcover, 362 pages, \$18.

## *Hit List: An In-Depth Investigation Into the Mysterious Deaths of Witnesses to the JFK Assassination*

**NEW!** Richard Belzer and David Wayne set the record straight about the many witness deaths tied to the JFK assassination. For decades, government pundits have dismissed these "coincidental" deaths, even regarding them as "urban legends." Were they? Some of the deaths seemed purely coincidental—heart attacks, hunting accidents, suicides, etc. Others clearly seemed noteworthy: witnesses who knew something and actually did die in inexplicable ways. *Hit List* is a fair and balanced examination of the evidence of each case, leading to different conclusions. The findings were absolutely staggering. The authors conclude that some cases were clearly linked to a clean-up operation designed to suppress the truth after the murder of President John F. Kennedy, while others were the result of other forces. Softcover, 368 pages, \$25.

## *The Most Dangerous Man in the World: The Explosive True Story of Julian Assange and What He Exposed*

**NEW!** Journalist Andrew Fowler talks to Julian Assange, his inner circle, and his critics, revealing the story of how Assange created a phenomenon that has disrupted international politics. According to whistleblower Daniel Ellsberg, Assange is "the most dangerous man in the world." But just who is Assange, and why is his quest for transparency and freedom of the press so dangerous to his detractors? From Assange's skirmishes with Scientology to the release of 570,000 messages sent on the day of the Sept. 11 attacks and the bombshell video showing U.S. soldiers firing on civilians and reporters, Fowler shows us that plus more, from the founding of WikiLeaks right up to Cablegate. Softcover, 288 pages, \$17.

## *Making Hate Pay: The Corruption of the Southern Poverty Law Center*

**NEW!** The Southern Poverty Law Center started with noble intentions and has done some good over the years, but a pernicious corruption has undermined the organization's original mission and contributed to a climate of fear and hostility in America. Hotels, web platforms, and credit card companies have blacklisted law-abiding Americans because the SPLC disagrees with their political views. The SPLC's false accusations have cost the organization

millions in lawsuits. A man even attempted to commit mass murder, inspired by the SPLC's rhetoric. How did a civil rights group dedicated to saving the innocent from the death penalty become a pernicious threat to America's free speech culture? How did an organization dedicated to fighting poverty wind up with millions in the Cayman Islands? How did a civil rights stalwart find itself accused of racism and sexism? *Making Hate Pay* tells the inside story and reveals how far from their original mission the SPLC has slipped. Softcover, 240 pages, \$19.

## *Profiles in Corruption: Abuse of Power by America's Progressive Elite*

**NEW!** In *Profiles in Corruption*, Peter Schweizer and his team of seasoned investigative reporters offer a deep-dive investigation into the private finances and secret deals of some of America's top political leaders. And, as usual, he doesn't disappoint, with never-before-reported revelations that uncover corruption and abuse of power—all backed up by a mountain of corporate documents and legal filings from around the globe. Learn about how they are making sweetheart deals, generating side income, bending the law to their own benefits, using legislation to advance their own interests, and much more. Hardback, 368 pages, \$30.

## *Psychopaths: Yesterday, Today & Tomorrow*

**NEW!** This is the first and only book to fully explore psychopathy from a political/social perspective and it was the last book ever written by prolific author Texe Marrs. Marrs describes how a sick and decadent society actually fosters psychopathic behavior and encourages disorderly, criminal, anti-social activity. Marrs shows how psychopathic activity continues to cyclically increase in society until it finally reaches "Crazy Times." This is a fantastic period in which anything goes and psychopaths run amok. This chaotic situation is usually followed by a totalitarian Bolshevik-style era. Psychopathic con men take charge, make incomprehensible changes, and commence horrific crimes. Is America at the threshold? Softcover, 208 pages, illustrated, \$25.

## *Presstitutes: Embedded in the Pay of the CIA*

**NEW!** The book became a bestseller in Germany—then the author died under mysterious circumstances. This English edition has been suppressed by Deep State actors, who certainly do not want this book to get out to a wide audience. Journalist Udo Ulfkotte reveals how he and his colleagues are corrupted and entrapped like modern-day mockingbirds in the tentacles of the ultimate paymaster—the CIA. Understand that there was no need to slip payoff envelopes to newsmen. They would get the bribes in their regular paychecks! The entire system is not only bought and corrupt, it was installed by the U.S. during the Allied occupation after WWII and continues to this day. Ulfkotte hammers away at the corruption of elite organizations and the “mockingbird press,” which set the rules of the game for the puppets who pen their pieces for fake news. Softcover, 254 pages, \$25.

## *The Contagion Myth: Why Viruses (Including ‘Coronavirus’) Are Not the Cause of Disease*

**NEW!** Dr. Thomas S. Cowan and Sally Fallon Morell ask the question: Are there really such things as viruses, or are electro-smog, toxic living conditions, and 5G actually to blame for Covid-19? The official explanation for today’s Covid-19 pandemic is a “dangerous, infectious virus.” This is the rationale for isolating a large portion of the world’s population in their homes to curb its spread. From face masks to social distancing, from antivirals to vaccines, these measures are predicated on the assumption that tiny viruses cause serious illness and that such illness is transmissible person-to-person. While the incidence and death statistics for Covid-19 may not be reliable, there is no question that many people have taken sick with a strange new disease—with odd symptoms like gasping for air—and more than 210,000 have died. Many suspect that the cause is not viral but a kind of pollution unique to the modern age—electromagnetic pollution. Hardback, 216 pages, \$25.

## *Open Borders Inc.: Who’s Funding America’s Destruction?*

**NEW!** Follow the money, find the truth. That’s Michelle Malkin’s journalistic mantra. Here she puts it to work with a shocking, comprehensive exposé of who’s behind America’s immigration crisis. In the name of compassion—but driven by financial profit—globalist elites, Silicon Valley, and the radical Left are conspiring to undo the rule of law, subvert our homeland security, shut down free speech, and make gobs of money off the backs of illegal aliens, refugees, and low-wage guest workers. Politicians want cheap votes or cheap labor. Social justice mil-

itants, working with corporate America, want to silence free speech they deem “hateful,” while raking in tens of millions of dollars promoting mass, uncontrolled immigration both legal and illegal, that will forever and indelibly alter the cultural make-up of America. Malkin names names—from Pope Francis to George Clooney, from George Soros to the Koch brothers, from Jack Dorsey to Tim Cook and Mark Zuckerberg. Hardback, 468 pages, \$29.

## *Bullyocracy: How the Social Hierarchy Enables Bullies to Rule Schools, Work Places and Society*

**NEW!** Author Donald Jeffries turns his critical eye onto the topic of bullying to show how teachers, principals, and other school officials invariably side with the bullies, instead of protecting the victims. He also shows how many so-called anti-bullying activists and nearly all the professional “experts” excuse bullying and laud sociopathic behavior in general. Jeffries talked to parents who’d battled a system that logically should have been working for them, some of whom lost a child to bullycide, the term for children who kill themselves over bullying. His investigation into what has become one of the most talked about issues in America is as explosive and controversial as anything he has written. This is must reading for anyone who has children or grandchildren in school or knows someone who has kids who are being bullied. Softcover, 384 pages, \$22.

## *Before Our Very Eyes, Fake Wars and Big Lies: From 9/11 to Donald Trump*

**NEW!** World-famous political analyst and editor Thierry Meyssan has lived the last 10 years in the thick of the action in Syria and Libya, even serving personally as an adviser to those governments. Here he shares the inside story of the 21st-century regime change wars. He lays bare the “Arab Spring,” the “revolutions” against Muammar Qaddafi and Bashar al Assad, and the rapid rise of the jihadist monster ISIS, as masked operations of the U.S. empire. *Before Our Very Eyes* chronicles the onslaught against Syria and Libya from the viewpoints of three camps: the foolish ambitions of the French neo-colonialists, the fanaticism of the Muslim Brotherhood, and the lust for world domination of the Anglo-Zionist-American Empire. The Anglo-American axis (the U.S., UK, and Israel) deployed their stranglehold on the world’s money and media to purvey a fake narrative of human rights violations. This was the cover story for the real scheme: to utterly disable the Muslim world by bringing it under the sword of fanatics like the Brotherhood, al Qaeda and ISIS. The wars on Libya and Syria were based on fakery—but the suffering of millions of victims is real. Softcover, 286 pages, \$25.

## *Permanent Record: Edward Snowden*

Edward Snowden, the man who risked everything to expose the U.S. government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, Snowden shocked the world when he broke with the intelligence establishment and revealed that the U.S. government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on Earth. Hardback, 352 pages, \$30.

## *The Trayvon Hoax: Unmasking the Witness Fraud that Divided America*

By examining Trayvon Martin's 750-page cell phone records, Joel Gilbert discovers that the key witness for the prosecution of George Zimmerman was a fraud. It was a different girl who was on the phone with Martin just before he was shot. Her recorded conversation with attorney Ben Crump ignited the public, and provoked the media to demand Zimmerman's arrest. Gilbert's research takes him through the streets of Miami, where he finds Trayvon's real girlfriend, the real phone witness. Gilbert confirms his revelations with forensic handwriting analysis and DNA testing. Gilbert then reconstructs the true story of Trayvon Martin's troubled teenage life and tragic death. Softcover, 272 pages, \$17.

## *Chaos: Charles Manson, the CIA and the Secret History of the Sixties*

By Tom O'Neill and Dan Piepenbring. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the Manson murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. Every discovery brought more questions: Who were Charles Manson's real friends in Hollywood? How far would they go to hide their ties to drugs and prostitution? Why didn't law enforcement act on the many chances it had to stop him? And how did Manson—an illiterate ex-con—turn a group of peaceful hippies into remorseless killers? Hardback, 528 pages, \$30.

## *The Articles of Confederation Explained: A Clause-by-Clause Study of America's First Constitution*

In this important primer, award-winning historian Col. Lochlainn Seabrook takes an in-depth look at the 13 Articles of Confederation, first formulated in 1777. The complete and original text of each article is provided, along with a clear and simple explanation describing its meaning and true purpose. Also included is a list of the 10 presidents of the U.S. Confederacy, who served, according to specifications laid out in Article Nine, between the years 1779 and 1789. Discover for yourself why some of America's greatest thinkers—such as the author's cousin Patrick Henry—embraced the Articles of Confederation and argued against the Constitution and against a more powerful central government. Softcover, 48 pages, \$10.

## *The Death of the West: How Dying Populations and Immigrant Invasions Imperil Our Country*

The national bestseller that shocked the nation, Pat Buchanan's *The Death of the West* is an unflinching look at the increasing decline in Western culture and power. *The Death of the West* details how a civilization, culture, and moral order are passing away and foresees a new world order that has terrifying implications for our freedom, our faith, and the preeminence of American democracy. *The Death of the West* is a timely, provocative study that asks the question that quietly troubles millions: Is the America we grew up in gone forever? Hardback, 496 pages, \$25.

## *The True Story of the Bilderberg Group*

Delving into a world shrouded in mystery and impenetrable security, this book from Daniel Estulin provides a factual account of the annual meetings of the world's most powerful people—the Bilderberg Group. Since its inception in 1954, the Bilderberg Group has been comprised of European ministers, U.S. presidents, and the wealthiest CEOs from across the world, all coming together to discuss the economic and political future of humanity—and how they can profit. No information on the discussions they have—which have ramifications for the citizens of the world—have ever been released. In several instances, Estulin put his own life on the line

to do what no one else besides AFP's Jim Tucker has ever done: He learned what was being said behind the closed doors of the opulent hotels and made it available to the public. Softcover, 416 pages, large photo and insider document section, indexed. \$25.

## *The Tavistock Institute: Social Engineering the Masses*

The Tavistock Institute, in England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book by Daniel Estulin posits that it is the world's center for mass brainwashing and social engineering operations. It grew from a humble beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and, in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, Tavistock has a large reach. Estulin says this conspiracy is real, who is behind it, what its final objectives are, and how we can stop them. Softcover, 239 pages, \$25.

## *Justice on Trial: The Kavanaugh Confirmation*

The Supreme Court has become the arbiter of our nation's most vexing and divisive disputes. With the stakes of each vacancy incalculably high, the incentive to utterly destroy a nominee is nearly irresistible. The next time a nomination promises to change the balance of the Supreme Court, the authors warn, the confirmation fight will be even uglier than Brett Kavanaugh's. A good judge might just accept a nomination to the Supreme Court in the naïve belief that what happened to Kavanaugh won't happen to him because he, too, is a good person. But it can happen and it does happen. The question is whether America will let it happen again. In this definitive deep dive into the confirmation of Justice Kavanaugh, two women with extraordinary behind-the-scenes access—*The Federalist* senior editor Mollie Hemingway and Judicial Crisis Network senior counsel Carrie Severino—reveal what really happened and explore what the bitterly divisive hearings mean for the future of the court and the battle for the soul of America. Hardback, 256 pages, \$27.

## George Orwell's Classic: 1984

Large print edition. Here's the classic book that many reference but few have actually read! A chilling portrait of a totalitarian society under the ever-watchful gaze of Big Brother, where love, privacy, and individuality are banned. At the time it was written, many people chuckled, not believing that such a world could ever come to be from the world in which they lived. Today, it is one of the most quoted books in history simply because the vivid yet fictional descriptions Orwell offered back in 1948 have become disturbingly true: a gray, totalitarian world dominated by Big Brother and its vast network of agents, including the Thought Police, a world in which news is manufactured according to the authorities, and people live tepid and fearful lives. Softcover, large-print edition, 400 pages, \$15.

## Crimes & Cover-Ups in American Politics 1776-1963: The History They Didn't Teach You in School

By Donald Jeffries. *Crimes and Cover-ups in American Politics 1776-1963* scrutinizes the accepted history of everything from the American War of Independence to the establishment defamation of Jefferson and the other Founding Fathers, the Civil War, the Lincoln assassination, both World Wars, U.S. government experimentation on prisoners, mental patients, innocent children and whole populated areas, the Lindbergh baby kidnapping and more. Secular saints like Lincoln, Teddy Roosevelt, and FDR are examined in a truthful but critical way. Jeffries spares no one and nothing in this explosive new book. The atrocities of Union troops during the Civil War—and Allied troops during World War II—are documented in detail. The Nuremberg Trials are shown as the antithesis of justice. Jeffries demonstrates that crimes, corruption, and conspiracy didn't start with the murder of JFK. Hardback, 406 pages, \$25.

## The Deep State Prophecy and the Last Trump

This book is about the gathering of missing pieces to a puzzle extracted from the annals of time. It is a picture painted from the heavens. History exposes hidden pieces to a great prophetic puzzle. The fog of religious doctrine has lifted. Men can see clearly now, as long-standing prophetic theories are exposed by the purifying light of the real facts. New York City is the story world of the great intrigue and holds the clues to a remarkable tale. Why? Because NYC is the citadel of world commerce, but, most importantly, it is the residence of the Great Beast—the United Nations, the nerve center for the globalization of Earth. Softcover, 281 pages, \$19.

Here's the history of an anonymous poster on free speech websites and how he (or perhaps they) built a following of millions. With an insider's knowledge of the battle plan and "Q"-level military intelligence clearance, QAnon's communications are often cryptic and coded. This book was written by 12 anonymous "Q" followers. They each know a great deal about QAnon, each bringing their own unique perspective and experience. Together they give you an overview that may encourage you to learn more. Softcover, 270 pages, \$25.

## Deep State Target: How I Got Caught in the Crosshairs of the Plot to Bring Down President Trump

George Papadopoulos's account proves the attempted sabotage of Donald Trump's presidential campaign by U.S. and international intelligence services. There was an intricate set-up at play, and it was neither Trump nor the Russians pulling the strings. American and allied intelligence services set out to destroy a Trump presidency before it even started. Papadopoulos encountered a rogues' gallery of infamous figures employed by agents from the U.S., Britain, and Australia. Here's the play-by-play of how operatives like Professor Joseph Mifsud, Sergei Millian, Alexander Downer, and Stefan Halper worked to invent a Russian conspiracy that would irreparably damage the Trump administration. Hardback, 288 pages, \$29.

## Hate Crime Hoax: How the Left Is Selling a Fake Race War

If you believe the news, today's America is plagued by an epidemic of violent hate crimes. But is that really true? In *Hate Crime Hoax*, Professor Wilfred Reilly examines over 100 widely publicized incidents of so-called hate crimes that never actually happened. With a critical eye and attention to detail, Reilly debunks these fabricated incidents—many of them alleged to have happened on college campuses—and explores why so many Americans are driven to fake hate crimes. We're not experiencing an epidemic of hate crimes, Reilly concludes, but we might be experiencing an unprecedented epidemic of hate crime hoaxes. Hardback, 256 pages, \$29.

## Ten Myths About Israel

Israeli historian Ilan Pappé examines the most contested ideas concerning the origins and identity of the state of Israel. The "10 myths" that Pappé explores—repeated endlessly in the media, enforced by the military, accepted without question by the world's governments—reinforce the regional status quo. He explores the claim that Palestine was an empty land at the time of the Balfour Declaration, as well as the formation of Zionism and its role in the early decades of nation-building plus much, much more. Softcover, 192 pages, \$16.

## The Deep State: How an Army of Bureaucrats Protected Obama

Former congressman Jason Chaffetz explains how we ended up with a politicized federal bureaucracy that actively works to promote the Democrat Party agenda and undermine conservatives. The liberal media loves to characterize the Obama years as free of scandal. They pretend this is true because virtually every office in the executive branch worked to withhold evidence of wrongdoing, silence witness testimony, destroy federal records, classify embarrassing information, and retaliate against truth tellers. Yet these same tight-lipped lifers leaked like a sieve once President Trump was sworn in, freely promoting the illusion that everything he does is the new Watergate. Hardback, 256 pages, \$29.

## On Western Terrorism

Noam Chomsky discusses Western power and propaganda with filmmaker and investigative journalist Andre Vltchek. Colonialism, imperial control, propaganda, the Arab Spring, and drone warfare are discussed, resulting in a powerful critique of the legacy of colonialism, touching upon many countries including Syria, Nicaragua, Cuba, China, Chile, and Turkey. Updated with a new design and foreword. This book remains an influential and powerful critique of the West's role in the world, inspiring all who read it to think independently and critically. Softcover, 208 pages, \$20.

## Forsaken But Not Forgotten: America's Most Shameful National Secret Revealed

Between the Russian civil war, World War II, the Korean War, Vietnam and the Cold War, as many as 30,000 American soldiers, sailors, Marines, airmen, and civilians were knowingly abandoned by this country's leaders. Inside *Forsaken But Not Forgotten*, longtime author and researcher Philip Rife presents the government's rationale for abandoning so many of America's military men behind enemy lines. Softcover, 89 pages, \$15.

### *Pale Horse Rider: William Cooper, the Rise of Conspiracy, and the Fall of Trust in America*

A former naval intelligence worker, Milton Cooper published his manifesto *Behold a Pale Horse* in 1991. Since then it has gone on to sell hundreds of thousands of copies. According to the book, JFK was assassinated by his driver, AIDS is a government conspiracy, and the Illuminati is secretly involved to manage relationships with extraterrestrials. Cooper died in a shootout with Apache County sheriffs deputies in 2001, two months after Sept. 11, the year in which he had predicted catastrophe. By Mark Jacobson. Hardback, 384 pages, \$27.

### *Ship of Fools: How a Selfish Ruling Class Is Bringing America to the Brink of Revolution*

Tucker Carlson tells the truth about the new American elites, a group whose power and wealth has grown beyond imagination even as the rest of the country has withered. The people who run America now barely interact with it. They fly on their own planes, ski on their own mountains, and watch sporting events in sky boxes. They have total contempt for you. Traditional liberals are gone. The hand-wringers who worried about whales and defended free speech have been replaced by globalists who hide their hard-edged economic agenda behind the smokescreen of identity politics. They'll outsource your job while lecturing you about transgender bathrooms. But Carlson offers a plan to put the country back on course. Hardback, 256 pages, \$28.

### *Secret Empires: How the American Political Class Hides Corruption and Enriches Family and Friends*

Journalist Peter Schweizer explains how a new corruption has taken hold, involving larger sums of money than ever before. Stuffing money into a freezer has morphed into multibillion-dollar equity deals done in the dark corners of the world. An American bank opening in China would be prohibited by U.S. law from hiring family members of top Chinese politicians. A Chinese bank opening in America can hire anyone it wants. It can even invite the friends and families of U.S. politicians to invest in can't-lose deals. Donald Trump's children have made front page-news for their dicey transactions. The media has ignored the questionable deals made by those close to Obama, Biden, Kerry, and others who have been in the game much longer. Hardback, 318 pages, \$29.

### *Strange Company: Military Encounters with UFOs in WWII*

By Keith Chester. *Strange Company* is the first in-depth account of unconventional aircraft observed and reported by the military during World War II. It includes the reactions by military commands, their viewpoints, and theories as they struggled to make sense of the observations. *Strange Company* presents one of the greatest wartime mysteries, one that has been shrouded in ignorance for more than 60 years. And it suggests that while an immense 20th-century war was raging on Earth, there appeared to be something, from somewhere else watching us. Softcover, 320 pages, \$18.

### *Hidden History: An Exposé of Modern Crimes, Conspiracies, and Cover-Ups*

Softcover, 392 pages, \$23.

### *Iraq and the Politics of Oil: An Insider's Perspective*

Gary Vogler offers a behind-the-scenes account of the role of the U.S. government in the Iraqi oil sector since 2003. Vogler describes the prewar oil planning and the important decisions made during hostilities to get Iraqi oil flowing. Vogler gives us an expert insider's view of the largest oilfield auctions in the history of the oil industry and massive increases in oil production. But under the successes chronicled here, a darker political narrative emerges, one that reaches back to the decision to go to war with Iraq. Hardback, 318 pages, \$29.

### *The Diversity Delusion: How Race and Gender Pandering Undermine Culture*

By Heather MacDonald. America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined morals, fueled intolerance, and widened divisions in our culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling or employers hiring by merit? Racist and sexist. Students

emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges this belief is silenced. Hardback, 288 pages, \$29.

### *Filthy Rich: The Billionaire's Sex Scandal —The Shocking True Story of Jeff Epstein*

By James Patterson. Jeff Epstein rose from humble origins to the rarefied heights of New York City's financial elite. A college dropout with an instinct for numbers—and for people—Epstein amassed his wealth through a combination of access and skill—and possibly even blackmail. But even after he had it all, Epstein wanted more. And that unceasing desire—especially a perverse taste for young girls—resulted in his stunning fall from grace. From Epstein himself, to the girls he employed as masseuses at his home, to the cops investigating the appalling charges against him, Patterson examines all sides of a case that scandalized one of America's richest communities. Epstein's "little black book" contained contact numbers for Hollywood stars and powerful people like Bill Clinton, Tony Blair, Prince Andrew, Kevin Spacey, Dustin Hoffman, Michael Bloomberg and many more. Even Donald Trump had connections to Jeff Epstein. Currently, Epstein's "madam" is in jail and being questioned. Softcover, 304 pages, \$28.

### *The Wandering Who? An Examination of Jewish Identity Politics*

Jewish identity is tied up with some of the most difficult and contentious issues of today, as any perusal of a newspaper will reveal immediately. Atzmon examines the tribal aspects embedded in Jewish secular discourse, both Zionist and anti-Zionist; the allegation that the holocaust has been turned into a religion; the meaning of "history" and "time" within the Jewish political discourse; and the anti-Gentile ideologies of secular Judaism. Softcover, 211 pages, \$18.

### *Let Trump Be Trump: The Inside Story*

Here is the ultimate behind-the-scenes account of how Trump became president. Trump was a candidate—and now a president—like none who have come before. His startling rise to the White House is the most shocking political tale in the history of our republic. Much has been written about this event, but all of those words come from authors outside the orbit of Trump. Written by two of Trump's closest campaign advisors, *Let Trump Be Trump* is the eyewitness account of the stories behind the headlines. Hear about Spicer, Preibus, Bannon, and more. Hardback, 296 pages, \$27.

### *It's Not Easy Being God: The Real George Soros*

In this collection of essays, Joy Tiz provides an unnerving analysis of billionaire radical leftist and social engineer George Soros. This collection of exposés unmasks Soros for what he is: one of the most detrimental forces on the planet, a man who may have shaped our world more than any man in two millennia. What is his personal agenda? What is his vision of the New World Order? What was his relationship with Barack Obama? Where is he dumping his money? Who are his allies? Who are his enemies? Softcover, 108 pages, \$16.

### *Rogue Spooks: The Intelligence War on Trump*

Donald Trump's time in office has been roiled by allegations of treason and election rigging. These outrageous charges surfaced in the "Trump Dossier," an unverified document full of wild accusations. This fake report was compiled by a former British intelligence agent who teamed up with the FBI and anti-Trump partisans. Hillary supporters paid for Steele's work. When no news media would publish the dossier, the ex-spook enlisted the help of a former UK ambassador to Russia, who arranged for a former assistant secretary of state to get it to Sen. John McCain, hoping he would bring it to FBI Director James Comey. Hardback, 288 pages, \$28.

### *All Out War: The Plot to Destroy Trump*

The Washington establishment and the radical left have joined forces in an attempted coup d'état designed to return power to the political and media elites. Investigative reporter Edward Klein reveals how the plot to destroy Trump was initiated in the Obama White House; two exclusive FBI reports prove the existence of "the Deep State" working against the Trump agenda, and highlight the danger of domestic terrorism from the anti-Trump radicals; the scandal you don't yet know about. Hardback, 256 pages, \$29.

### *Truth Jihad: My Epic Struggle Against the 9/11 Big Lie*

Millions of people now know the main arguments for the thesis 9/11 was an inside job, starting from the controlled demolition of the World Trade Center buildings No. 1, 2 and 7. Dr. Kevin Barrett has written a gospel for a new generation of post-9/11 skeptics. This ebullient book strikes a confident keynote for this sudden coming of age. It is for millions of disenfranchised 9/11 truthers—and for the uneasy majority who sense that America is no longer on the right track. Softcover, 222 pages, \$12.

### *In the Shadows of the American Century: The Rise & Decline of U.S. Global Power*

Historian Alfred W. McCoy explores America's rise as a world power—from the 1890s through the Cold War—and its bid to extend its hegemony deep into the 21st century through a fusion of cyberwar, space warfare, trade pacts, and military alliances. McCoy then analyzes the marquee instruments of U.S. hegemony—covert intervention and worldwide surveillance. McCoy exposes a military and economic battle for global domination fought in the shadows, unknown to those outside the highest rungs of power. Softcover, 280 pages, \$18.

### *An Act of State: The Execution of MLK*

By attorney William Pepper. In 1968, Martin Luther King was in Memphis supporting a worker strike. By nightfall, army snipers were in position, military officers were on a nearby roof with cameras, and Lloyd Jowers had been paid to remove the gun after the fatal shot was fired. When the dust had settled, King had been hit and a clean-up operation was set in motion—James Earl Ray was framed, the crime scene destroyed, and witnesses killed. Softcover, 350 pages, \$22.

### *Survival of the Richest—How the Disparity of Wealth Created the Greatest Conspiracy of All*

Donald Jeffries scrutinizes how the collective wealth of America has been channeled from the poor and middle class into the hands of a few elitists. American industry has been gutted, wages and benefits stagnate, thanks to disastrous trade deals and outsourcing. The presidential campaigns of Sanders and Trump revealed how more and more struggling people understand that the system is rigged against them. While Americans have been trained to direct their scorn at welfare recipients and the poor, a handful of plutocrats profit on an unfathomable scale. Hardback, 280 pages, \$25.

### *No Campus for White Men: The Transformation of Higher Education into Hateful Indoctrination*

*No Campus for White Men* shines a bright light on the growing obsession with diversity, victimization, and identity politics on today's college campuses, and shows how it is creating a hostile and fearful atmosphere that can only lead to greater polarization in society. For decades, colleges have pursued policies favoring students based not on merit but on race, gender, and sexual orientation. The negative effects of this culture can't be denied. By Scott Greer. Softcover, 240 pages, \$20.

### *Corporate Ties That Bind: An Examination of Corporate Manipulation and Vested Interest in Public Health*

Edited by Martin J. Walker. In the 21st century, corporations have worked their way into government. With corporations at the center of public health and environmental issues, everything chemical or technological is good, everything natural is bad; scientists who are funded by corporations are right and independents are invariably wrong. Here is a collection of essays written by professionals from around the world that addresses how the growth of corporatism is destroying democracy and personal choice. Hardback, 592 pages, \$35.

### *America's "War on Terrorism"*

Michel Chossudovsky blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by Islamic terrorists. This expanded edition, which includes 12 new chapters, focuses on the use of 9/11 as a pretext for the invasion and illegal occupation of Iraq, the militarization of justice and law enforcement and the repeal of democracy. According to Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The war on terrorism is a war of conquest. Globalization is the final march to the New World Order, dominated by Wall Street and the Pentagon. Softcover, 387 pages, \$25.

### *A Century of War: Anglo-American Oil Politics in the 20th Century*

"Control the oil and you control entire nations," said Deep State operative Henry Kissinger. Oil is an instrument of world domination in the grip of the Anglo-American empire. This book is a gripping account of the murky world of the oil industry and its hidden role in world politics. F. William Engdahl takes the reader through the history of how seven giant oil companies—five American and two British—developed a controlling grip on the world's economy unprecedented in history. This is no ordinary history of oil. It is a history of global geopolitics—how control of strategic geographical pivot regions helps control in large part the world economy. Softcover, 352 pages, \$25.

### *The Plot to Scapegoat Russia: How the CIA and the Deep State Have Conspired to Vilify Putin*

By Dan Kovalik, introduction by David Talbot. Since 1945, the U.S. has justified numerous wars based on the pretext of the Russian Red Menace, even after the Soviet Union collapsed in 1991. In fact, the two biggest post-war American conflicts, the Korean and Vietnam wars, were not, as has been claimed, about stopping Soviet expansion, but about maintaining old colonial relationships. Similarly, many lesser interventions and conflicts, such as those in Latin America, were also based upon an alleged Soviet threat, which was nonexistent. Now the specter of a Russian Menace has been raised again. *The Plot to Scapegoat Russia* examines the proliferation of stories, from American state actors, manipulating the threat of Russia, and the long history of which this episode is but the latest chapter. Softcover, 240 pages, \$19.

### *Gods of Money: Wall Street & the Death of the American Century*

By F. William Engdahl. This is a book about power and about an extraordinarily wealthy elite which has wielded unprecedented power, not for the good, but rather for the enhancement of their own private position. This book tracks the evolution of the power amassed by a tiny group of men who have regarded themselves, quite literally, as gods—the Gods of Money. Their agenda has included assassinations of two of America's most popular presidents; involvement of the United States against the public will in two world wars; and detonation of the world's most destructive weapon, the atomic bomb, on Japanese civilians. It has included scores of regional wars, political assassinations, coups, and systematic corruption of the body politic. This book reveals in an unusual and surprising manner how this powerful elite has systematically set out to literally control the entire world. Softcover, 390 pages, \$25.

### *9/11: Made in Israel— The Plot Against America*

What this Victor Thorn book makes clear, and what many 9/11 “truthers” don’t know, is that a massive deception and cover-up exists not only in the mainstream media, but in the so-called 9/11 truth movement as well. It is true that 9/11 was an “inside job,” and criminal elements within the U.S. government were undoubtedly involved. But 9/11 was much more. It was an “outside job” also, ultimately facilitated by multiple, well-coordinated Zionist and Jewish factions. Who benefited from the attacks on 9/11? Israeli Prime Minister

Benjamin Netanyahu said, “We [Israelis] are benefiting from one thing, and that is the attack on the Twin Towers and Pentagon.” Softcover, 138 pages, \$15.

### *9/11 Evil: Israel's Central Role in the September 11, 2001 Terrorist Attack*

By Victor Thorn. This is the book that many influential 9/11 organizations and the Anti-Defamation League don’t want you to read or talk about. This is the book that Deep State insiders in the U.S. government prefer you forget all about. They describe it as “preposterous,” simply because the evidence compiled points a finger at Israel as a major player in the Sept. 11, 2001 terrorist attacks on America. But facts are facts; we do not control where they lead. Softcover, 123 pages, \$15.

### *Remember the Liberty! Almost Sunk by Treason on the High Seas*

On June 8, 1967, starting at about 6:00 a.m., at least 12 Israeli aircraft of different types began surveilling the USS *Liberty*, some of which were only 100 feet or less in altitude, apparently to photograph her for later targeting purposes. The precision of the later attack could only have been accomplished through such pre-planning, specifically identifying the priority targets, starting with the gun mounts to render the ship defenseless, followed by all of the 45 different radio antennae and transmitting equipment. When the attack was over, 34 U.S. servicemen were dead and 174 gravely injured. Philip Nelson examines the attack and explains why it was positioned there by LBJ for the very purpose of being attacked, and sunk. Softcover, 480 pages, \$20.

### *The Convenient Terrorist: Two Whistleblowers' Stories of Torture, Terror, Secret Wars, and CIA Lies*

*The Convenient Terrorist* is the definitive inside account of the capture, torture, and detention of Abu Zubaydah, the first “high-value target” captured by the CIA after 9/11. But was Abu Zubaydah, who is still being indefinitely held by the United States under shadowy circumstances, the blue-ribbon capture that the Bush White House claimed he was? Authors John Kiriakou, who led the capture of Zubaydah, and Joseph Hickman, who took custody of him at Guantanamo, draw a far more complex and intriguing portrait of the al Qaeda “mastermind” who became a symbol of torture and the “dark side” of U.S. security. From a one-time American collaborator to a poster boy for waterboarding, Abu Zubaydah became a “convenient terrorist”—a way for U.S. authorities to sell their “War on Terror” to the American people. Softcover, 160 pages, \$15.

### *The Controllers: Secret Rulers of the World*

Throughout history, there have always been powerful people who work secretly behind the scenes to advance their own objectives, often to the detriment of the public. A few thousand wealthy and influential people who operate secretly behind the scenes largely control the world. This book identifies them, exposes some of their past activities, and sets forth ways of dealing with them. A system of global control, referred to as the “New World Order” by President George H.W. Bush, is in effect today. Insiders are promoting a one-world government, a one-world economy and a one-world religion, with themselves in charge of it all. A growing number of people are aware of what is going on, and are becoming increasingly resistant to the idea of a global socialistic dictatorship. This book seeks to add to that awareness. Softcover, 505 pages, \$26.

### *Against Our Better Judgment: The Hidden History of How the U.S. Was Used to Create Israel*

Soon after WWII, Dean Acheson warned that creating Israel on land already inhabited by Palestinians would imperil American interests in the region. Despite warnings, President Truman supported a Jewish state on land primarily inhabited by Muslims and Christians. Few Americans today are aware that U.S. support enabled the creation of the modern state of Israel. Fewer know that U.S. politicians pushed this policy over the forceful objections of experts. These dissenters were bombarded by a massive pro-Israel lobbying effort that ranged from well-funded Zionist organizations to an “elitist secret society” whose members included Zionist Justice Louis Brandeis. Alison Weir provides a clear view of the situation. Softcover, 260 pages, \$18.

### *New World Order Assassins*

By Victor Thorn. Here are the uncensored facts about the highest-profile murders in world history. *New World Order Assassins* delves into the facts that have been suppressed by official sources and the mainstream media for decades. The strange truth about Charles Manson and the Son of Sam, the role of the cultish and influential Process Church, political activist John Lennon and the many enemies he made during his musical and political activism career, the death of Princess Diana, the Port Arthur massacre, “suicided” Marilyn Monroe, Mary Pinchot Meyer—JFK’s acid-loving and murdered mistress, Kent State, Martin Luther King and Malcolm X, Squeaky Fromme and the Rockefellers, John Hinckley’s high-level connections, Sirhan Sirhan and RFK, and much more. Softcover, 280 pages, \$25.

## THE HILLARY (AND BILL) TRILOGY

### *The Sex Crimes Volume*

Part One of the Clinton Trilogy. Bill and Hillary's meteoric rise to success is chronicled. It's a carefully plotted path that has led to the White House. But along the way, a series of compromises had to be made, including a prearranged marriage, assignments for the CIA, and Hillary's ultimate role as a "fixer" for her husband's rapes and sexual harassment. Pulling no punches, investigative journalist Victor Thorn paints a compelling portrait of secrecy, deceit, violence and betrayal that shatters the myth of the Clintons. Softcover, 344 pages, \$30.

### *The Drugs Volume*

Part Two of the Clinton Trilogy. Some of the most damning examples ever put into print of the U.S. government's crimes and corruption are exposed in glaring detail. Beginning with the Clinton family's long-standing ties to the notorious Dixie Mafia, this book illustrates how billions of dollars of cocaine, cash and weapons passed through Mena, Arkansas during the 1980s—with the full knowledge of Bill and Hillary—to finance the illegal war in Nicaragua. This CIA-imported coke helped fuel the cocaine epidemic of the 1980s. In short, Bill and Hillary's Arkansas became a narco-republic, with little banks near Mena laundering more money than the biggest banks in New York City. Softcover, 310 pages, \$30.

### *The Murder Volume*

Part Three of the Clinton Trilogy. Is the Clinton "body count" for real? This question has plagued the former first couple for much of their entire partnership, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. But is it just an urban legend? This volume presents an overwhelming body of evidence that proves that the 110+ people who've died under mysterious circumstances—all tied to the Clintons—far surpasses any chance of coincidence. Readers will encounter a grisly world of CIA drug drops, crooked police agencies, notorious coroners and corrupt judges who shield the powerful from prosecution. Softcover, 383 pages, \$30.

### *Frontman: Barack Obama's Darkest Secrets Revealed*

By Victor Thorn. In 2008, Barack Obama became the face of hope and change. Yet lurking behind the scenes was a host of people who long ago selected this man to forward a global agenda. *Frontman* reveals the actual

powers behind his throne: Bilderberg plotters, Zionist handlers, global financiers, and Marxist activists. Exposes the cabal of men and women whose goal was (and still is) to radically transform the U.S. To cover their tracks, they carefully hid the life history of Obama from the public. Now that Obama is out of office, his political influence is still being felt in the endeavor he has chosen to pursue: undermining Donald Trump. Here is your chance to inform yourself and your friends about the many inconsistencies in Obama's meteoric rise and the gaggle of radical people and organizations who orchestrated it. Softcover, 112 pages, \$20.

### *The Intimidation Game: How the Left Is Silencing Free Speech*

From journalist Kim Strassel comes an insightful, alarming look at how the radical Left, once the champion of civil liberties and free speech, is today orchestrating a campaign to bully and frighten Americans out of their free speech rights. *The Intimidation Game* provides a chilling exposé of political scare tactics, including: how *Citizens United* set off a wave of liberal harassment against conservatives, the targeting of tea party groups by the IRS, how states have shut down conservative political activism businesses and websites, and much more. This book shines a light on how liberal governance and the liberal machine ensure varying opinions never reach the public. Softcover, 416 pages, \$18.

### *Crowning Clinton: Why Hillary Shouldn't Be in the White House*

AMERICAN FREE PRESS late corresponding editor Victor Thorn picks up where he left off with his *Hillary (and Bill)* trilogy. In *Crowning Clinton*, Thorn provides groundbreaking information that mainstream media sources only caught up with months or even years afterward, if they had the courage to even touch it at all. Including more than 50 one-on-one interviews with experts, this collection taps into some of the nation's most astute political minds to present a preponderance of evidence as to why Hillary and Bill's return to 1600 Pennsylvania Avenue would be disastrous for America. Softcover, 118 pages, \$12.

### *Everything They Ever Told Me Was a Lie*

By Pat Shannan. This book spans the past half-century and covers the unknown facts about the JFK assassination, the attempt on Ronald Reagan's life, the still-growing Apollo 11 controversy of the 1960s, the forgotten history of money, the odd connection between John Hinckley and the Bush family, the odd case of Arthur Bremer, James Earl Ray and the MLK assassination, Tim McVeigh's last secrets, the Sept. 11 attacks

and the Barack Obama citizenship debate. This book explains from the outset exactly who "they" are and how the mockingbird media allow outrageous lies to meld into false history. Softcover, 280 pages, \$25.

### *The Bilderbergers: Puppet-Masters of Power*

Since 1954, a discrete and select group of wealthy and powerful individuals have attended a private, yearly conference to discuss matters of their choosing. This group represents European and North American elites, as well as new talent and rising stars, from the worlds of politics, business, media, academia, the military and even royalty, and has included household names such as Margaret Thatcher, Henry Kissinger, and Prince Philip. In recent years, their numbers have featured David Cameron, Tony Blair, Angela Merkel, Bill Clinton, and David Rockefeller. They are "the Bilderbergers," named for the hotel in the Netherlands where their secret gatherings were first hosted. Investigative writer Gerhard Wisniewski explores the claims of conspiracy that swirl around the group, revealing names of participants, their agendas, and their goals. Examining records and hidden reports, the author uncovers the true history of the organization. Softcover, 288 pages, \$25.

### *Jim Tucker's Bilderberg Diary*

Late, longtime investigative journalist Jim Tucker lays out his remarkable history of covering Bilderberg (and its Trilateral and CFR allies), infiltrating Bilderberg meetings, procuring their private documents, and working relentlessly to shine the spotlight of public scrutiny on Bilderberg's affairs. Tucker introduces you to the little-known arena of the Bilderberg elite. This volume includes representative lists of Bilderberg membership over the years. Includes more than 80 on-the-scene photos of the Bilderbergers in action plus pictures of the author hobnobbing with the likes of Dick Cheney, Gerald Ford, and Margaret Thatcher plus photo reproductions of actual Bilderberg documents. Softcover, 253 pages, \$25.

### *Conspireality*

By Victor Thorn. Incredibly, in these pages you'll learn how the Patty Hearst kidnapping and the Symbionese Liberation Army, a CIA-financed remote viewing project, the Zodiac serial killings, a barbaric prison experiment and widespread cybernetic mind-control programs can all be tied to one geographic locale in California. By book's end, as readers climb back out of the maze, they realize that, akin to the ongoing myth of "lone nut assassins," all of these events—and many more in history—are interconnected. Softcover, 237 pages, \$25.

### *They Killed Our President: 63 Reasons to Believe There Was a Conspiracy to Kill John F. Kennedy*

It's been well over half a century since John F. Kennedy was assassinated, and it's time we all knew the facts, theories and myths surrounding the plot to kill JFK. Jesse Ventura, Dick Russell and David Wayne discuss the murder plot and the cover-up. This book discusses the most famous of theories, such as the shooter on the grassy knoll, and also offers recently discovered testimony that shows that elements of the U.S. government were behind the assassination. Softcover, 349 pages, \$30.

### *63 Documents the Government Doesn't Want You to Read*

Top investigators Jesse Ventura and Dick Russell walk readers through 47 of the most incriminating programs in 63 formerly classified documents to reveal criminal behavior at the top levels of government and the media. Among the cases discussed are: the CIA's top-secret program to control human behavior; the military plan to hijack airplanes and blame it on Cuban terrorists; the discovery of a secret Afghan archive; healthcare cover-ups; what the Deep State knows about our food supply but we don't; and more. Hardcover, 288 pages, \$27.

### *American Conspiracies: Lies, Lies and More Lies the Government Tells Us*

In this exposé of wrongful acts and cover-ups, Jesse Ventura looks closely at the conspiracy theories that have been presented over the years and separates the fact from the fiction. Ventura says many political murders need to be re-examined. Was the CIA involved in Watergate? Did the GOP steal two elections for Bush? Has all evidence been presented on 9/11? Is the collapse of the financial order and the bailouts by the Fed the biggest conspiracy ever? Softcover, 246 pages, \$17.

### *The Man Who Killed Kennedy: The Case Against LBJ*

Political insider Roger Stone makes a compelling case that Lyndon Johnson had the motive, means and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way onto the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of AG Bobby Kennedy. Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man—not Oswald. Johnson would use power from his connections in Texas, the mafia, and the government to escape his untimely political end and to seize power. Softcover, 480 pages, \$30.

### *Phantom Flight 93 and Other Astounding 9-11 Mysteries Explored*

By Victor Thorn. Flight 93 is the smoking gun that exposes the government's lies once and for all. Starting with physical evidence, it becomes clear that a passenger jetliner could not have crashed in Shanksville where officials said it did. Rather, the reality of that fateful morning is much more troublesome, and far more sinister. Also cited in this book are a plethora of lies concerning the cell phone calls, 9/11 passenger list oddities, corrupt officials who assisted the plan, wreckage of the plane found far from the crash site, areas cordoned off by the FBI etc. Softcover, 200 pages, \$20.

### *The Neoconservative Threat to World Order: Washington's Perilous War for Hegemony*

This collection of Paul Craig Roberts essays explores the extreme dangers in Washington's imposition of vassalage on other countries and Washington's resurrection of distrust among nuclear powers. The neoconservatives have become entrenched in successive American administrations, both Republican and Democratic. Their ideology of U.S. global hegemony, the doctrine that no other power will be allowed to arise that could constrain U.S. unilateral action, has become a foundation of U.S. foreign policy and has led to reckless intervention in Ukraine and an irresponsible assault on Russian national interests. These events have impelled Roberts, after an illustrious career in government and journalism, to write this enlightening book. Softcover, 308 pages, \$25.

### *How America Was Lost: From 9/11 to the Police/Warfare State*

By Paul Craig Roberts. Few American commentators have cut more clearly through the deepening deceit, hypocrisy and outright criminality that have infested official D.C. since 9/11 than Roberts. His scathing critique sheds much-needed light on the country's impending nightmare—economic collapse, internal repression, ongoing wars, and rising rejection by friends and foes alike. America's fate was sealed when the public and the anti-war movement bought the government's 9/11 conspiracy theory. This defining event of our time, which has launched the U.S. on interminable wars of aggression and a domestic police state, is a taboo topic for investigation in the media. Trillion-dollar wars have created financing problems for D.C.'s deficits, threatening the dollar's role as the world's reserve currency, and putting Social Security and Medicare on the block. Softcover, 465 pages, \$25.

### *The Failure of Laissez Faire Capitalism*

Paul Craig Roberts helps us understand the mistakes that are bringing the West to its knees. The 1% have pulled off an economic and political revolution. By offshoring manufacturing and professional jobs, U.S. corporations destroyed the growth of consumer income, the basis of the U.S. economy, leaving the population mired in debt. Deregulation was used to concentrate income and wealth in fewer hands and "too big to fail" corporations. Environmental destruction has accelerated as economists refuse to count the exhaustion of nature's resources as a cost. Softcover, 190 pages, \$19.

### *Battlefield America: The War on the American People*

By John Whitehead. Foreword by Ron Paul. Here's the follow-up to his award-winning book *A Government of Wolves*. John W. Whitehead paints a terrifying portrait of a nation at war with itself and on the verge of undermining the basic freedoms guaranteed in the Constitution. Police have been transformed into extensions of the military, towns and cities have become battlefields, and the American people have been turned into enemy combatants, to be spied on, tracked, scanned, frisked, searched, intimidated, invaded, raided, manhandled, censored, silenced, shot at, locked up and denied due process. Yet this police state did not come about overnight. Rather, the evolution has been very subtle. Hardcover, indexed, 337 pages, \$25.

### *On the Road to American Socialism: A Christian Perspective*

By Al Hays, Ph.D. Any prediction of a pending economic or social disaster is often difficult for people to accept if enough evidence is not available to support it. In this case, evidence is plentiful. History teaches that socialism always brings wars, chaos, hunger, poverty, extreme sacrifice and social upheaval. But socialism is always sold as a fair answer to human problems. In this case the evidences show that socialism is alive and well here in America, and has been so for decades, though not always openly visible or recognizable. This book was written to examine each of the goals and intentions of socialism, and how well it has accomplished those goals in America. Softcover, 377 pages, \$25.

### *America's Racial Powder Keg: How a Violent Dependency State Has Been Created in the Black Community*

Compiled and edited by Victor Thorn. After being promised a "post-racial" America by Barack Obama, this nation has instead seen cities set ablaze, anarchy in the streets, police officers assassinated in cold blood and violence directed against innocent whites. Rather than trying to temper this outrageous behavior, Obama and his cronies, including former Attorney General Eric Holder, gave their none-too-subtle nod of approval by associating with greedy race-peddlers like Al Sharpton. Spearheading a grievance industry that's based upon an overt hatred of whites dating back hundreds of years, Sharpton and company have become fabulously wealthy as their black followers spiral toward destruction. Thorn examines this phenomenon like no mainstream book has the courage to do. Softcover, 149 pages, \$20.

### **GLADIO:**

#### *NATO'S Dagger at the Heart of Europe*

By Richard Cottrell. Wet works, false flags, assassinations, and subversion pin Europe down as a U.S. colony. NATO death squads masquerade as a rear guard against a possible communist takeover, but are in reality a hideous cancer poisoning European democracy. NATO's dirty war projects have included the Italian Strategy of Tension, the Red Brigades and Baader Meinhof/Red Army Faction, the Banco Ambrosiano scandal, the deaths of Italian ex-PM Aldo Moro, banker Roberto Calvi, media magnate Robert Maxwell, Swedish PM Olaf Palme, and "The Umbrella Murder"; also the attempt on Pope John Paul II's life, the sex snare set for British PM Harold Wilson, and the Cyprus genocide. Gladio architect Lyman Lemnitzer is implicated in the 1944 reintroduction of the Mafia into Sicily and the murders of the Kennedy brothers. Covert NATO operations were behind the fall of the USSR, the color revolutions of Eastern Europe and Africa, and the massacres of August 2011 in Norway and Libya. Softcover, 498 pages, \$25.

### *The THORN Trilogy*

Victor Thorn: During his career, this fearless researcher gored more sacred cows and made more high-profile enemies than any investigative journalist in history. Some of them were very powerful people. These high-level criminals would like nothing more than to see Victor's memory fade into the sunset. But we refuse to let that happen. One of the primary goals of this project was to publish a three-volume book series over 600 pages long, each book containing about 200 pages of uncensored

Victor Thorn writings. Simply called *THORN*, this amazing collection of old-fashioned, hard-hitting investigative reporting is how we make Hillary and Bill (and every enemy of the truth) stop their celebration and start quaking again at the mention of Victor Thorn. The trilogy came in at 614 pages. Here is a partial table of contents of the subjects covered: The real Benghazi scandal; the Obamacare scam; scientist killed to hide fuel technology; Obama's energy scams; protesting patriot ranchers speak to Thorn; continuing mysteries surrounding the 9/11 attacks; Fukushima power plant disaster; why Soros wants to incite a race war; race hustlers profit from black-white conflict; Hillary Clinton's incestuous ties to Wall Street; how Hillary silenced Bill's victims; much more. Three softcover volumes, 614 total pages all from the great Victor Thorn. **\$25 per volume OR \$65 for the entire three-volume set. Save \$10.**

### *Final Judgment Two-Volume Commemorative Edition*

In this two-volume book set, Michael Collins Piper documents that JFK's efforts to prevent Israel from building nuclear weapons of mass destruction played a key role in the conspiracy behind his assassination. Elements of the CIA and organized crime were involved in the JFK conspiracy, but the role of Israel's intelligence agency, the Mossad, was the long-suppressed "missing link" that was finally unveiled in this titanic work. Now in two volumes, this extraordinary work demonstrates beyond any doubt that the Israeli connection to the murder of JFK is the common thread that ties together the whole plot. *Final Judgment: Volume 1* contains the main text of the book plus Mike's amazing photo section (softcover, 425 pages). *Final Judgment: Volume 2* comprises the 10 extremely detailed appendices referenced again and again in the main body of the book (softcover, 374 pages). *Final Judgment Commemorative Edition:* Two volumes, 799 total pages—\$45.

### *The Tyrannical Rule of the U.S. Supreme Court: How the Court Has Violated the Constitution*

By Donald C. Brockett. The Supreme Court has become an oligarchy exercising a tyrannical rule over our country. Instead of us changing our lives through our representative government, amending the Constitution if necessary, we are ruled by the court's interpretation of clauses of that document or creating words and phrases not contained therein in order to reach the decision they desire. This book challenges the court's decisions in several important areas in an effort to cause all of us to re-think what role the court should take in reference to our Constitution. Softcover, 168 pages, \$18.50.

By examining Trayvon Martin's 750-page cell phone records, Joel Gilbert discovers that the key witness for the prosecution of George Zimmerman, 18-year-old Rachel Jeantel, was a fraud. It was, in fact, a different girl who was on the phone with Trayvon just before he was shot. She was the 16-year-old named Diamond Eugene whose recorded conversation with attorney Benjamin Crump ignited the public, swayed President Obama, and provoked the nation's media to demand Zimmerman's arrest. Gilbert's painstaking research takes him through the high schools of Miami, into the back alleys of Little Haiti, and finally to Florida State University where he finds Trayvon's real girlfriend, the real phone witness and confirms his revelations with forensic handwriting analysis and DNA testing. Gilbert then reconstructs the true story of Trayvon Martin's troubled teenage life and tragic death. In the process, he exposes in detail the most consequential hoax in recent American judicial history. DVD, 120 minutes—\$19.
