Are You REALLY Prepared?

Many people think so—but few truly are . . .

The latest products and manuals from Solutions From Science help you get prepared for anything—from storms, power outages and food shortages to home invasion threats from lowlife criminal scum . . .

Dear AFP Reader,

One thing I know for sure about the founders of America is that they were a truly self-reliant lot. In fact, the terms "stubborn" and "hard-nosed" seem to fit the character of most Americans from the early *Mayflower* settlers though the War for Independence. Imagine having a conversation with George Washington or Thomas Jefferson and telling them 50% of the populace receives some kind of

government money. They would look at you like you were just plain nuts! As a reader of AMERICAN FREE PRESS, you're part of the last remnant of Americans that hold to the belief that it's smart to be ready for trouble should some natural or man-made disaster come your way. In this special wrap we put together some remarkable tools to help you become ready for the hard times ahead. We even have a few of our "Scratch and Dent" Power Hubs avail-

able for those who are wanting to become energy self-sufficient.

You can read about the offer on page A-2.
Yours For Self Reliance,

Bill Heid
President and Founder
Solutions From Science

How To Filter 2,000 Liters Of Water For Less Than \$50 . . .

Made for Paratroopers — Now Available to You

Even though it's small enough to fit in the palm of your hand, the Paratroopers Water Purifier can purify even the dirtiest lake, river and rain water, removing 100% of harmful bacteria—even *E.coli* bacteria.

See PARATROOPER, page A-3.

Scratch & Dent PowerHub 1800 Sale

We've Never Done Anything Like This Before . . .
You Just Won't Believe How It All Started . . .

By Bill Heid

Last December we ran a small sale on a few of our **PowerHub 1800 Solar Generators** that had some minor scratches or dented boxes. (Nothing wrong with the units at all.) At the prices we let them go for, we sold out in just under three hours. Ever since, we've had customers calling and emailing asking when we were going to do it again.

As I said, our phones always light up like Christmas when we make crazy offers to our close friends and customers. Well, if you missed your chance on a **PowerHub 1800** last December, don't fret . . . because we have what we think is an even better value for you today!

My company, Solutions From Science, is presently in the process of building a small cafe here in Thomson, Ill. We call it The Heirloom Cafe. During the construction process, we had to move some **PowerHub 1800s** from what is to be the new cafe to our other warehouse on Main Street.

The bad news (for us at least) is that Dan, the fork lift driver, scuffed a few of the boxes up pretty good. (I think there are seven or eight of them.) Needless to say, I was madder than a hornet! I mean, how hard is it to move a pallet from one spot to another?

Anyway, we took each and every "scuffed" **PowerHub 1800** out of the boxes to see if they were OK ... and fortunately for us, they were undamaged. We even tested the units just to be sure.

But with the boxes still "scuffed"... you know how it is ... you just can't sell the unit as new. So we thought we'd make you a crazy summer "melt-the-grid" offer.

Now, here's the best part: **The PowerHub 1800**

Solar Generator generates four times as much power as our smaller model ... but you won't pay anywhere near four times the price right now.

With the steep "Scratch & Dent" discount, you can practically steal one of these units from us.

We're letting them go for an unbelievable **\$2997** plus shipping. (Remember, they are \$3997 normally.) And get this: in order to clear the warehouse space up ... we're gonna sweeten the deal even more.

FREE BONUS ONE:

When you order one of these "Scratch & Dent" **PowerHubs**, you'll also get a **FREE Eliminator**. The Eliminator (\$549 value) is a back-up power system that can supply up to 1500 watts of household electricity. This mobile workhorse can also be used outdoors, and operates a wide variety of electronics including communication devices, power tools, full-size appliances and more. Combined in a rugged cart, the Eliminator can be easily wheeled from room-to-room or outdoors over rough terrain. A \$549 value.

FREE BONUS TWO:

Then, we decided to throw in a **Powerpack 600 HD** (\$199 value) which is a 600-watt handheld back-up power unit. Every family should have a **Power Pack 600 HD** . . . just in case.

Ideal for power emergencies

Here's the forklift driver who made this **PowerHub Scratch & Dent Sale** possible. But don't worry . . . we still love him.

or even recharging a car battery when no electricity is available, the **Power Pack 600 HD** comes with a built-in emergency light and jumper cables. Integrated AM/FM radio and digital alarm clock provides access to music, talk radio and news. Whether it's a job site or a camp site, the **Powerpack 600 HD** is the ideal portable backup power solution. A \$199 value.

BONUS THREE:

And lastly, while supplies last, I'm throwing in one of our **Summer Survival Gelmats** worth \$149 to seal the deal.

If the air conditioner goes out—or even if you are camping—and you do not have power, this is absolutely the next best thing. If you remember, the Japanese bought millions of these mats when the grid went down after the quake, tsunami and nuclear disaster. It's "instant air conditioning" when you need it most. The **Summer Survival Gemat** supports your body's own natural cooling mechanism. The secret is in the patent-pending gel inside the mat. The non-toxic, water-based gel actually absorbs your body heat. A \$149 value.

Get Your Back-Up Power Plan in Action: Don't Wait Until It's Too Late . . .

With temperatures soaring into the triple digits in many areas of the country, power outages are already taking out the grid in many parts of the country. And with electric rates rising faster than any time in history, it's a great time to have some back-up power just in case of an emergency.

Regularly \$3,997 plus S&H, today you will pay just **\$2,997 plus S&H**, and we are adding the **Eliminator** (a \$549 value), the **Power Pack 600 HD** (\$199 value) plus the **Summer Survival Gemat** (a \$149 value) **ALL FOR FREE**. That's \$1,000 off the **PowerHub 1800 Solar Backup Unit** plus another \$847 in really useful **FREE** gift products!

Call our office **TODAY** between 9 a.m. and 3 p.m. Central Time to talk to a customer service rep. The number to call is **1-877-327-0365**. Be sure to ask for Dept. AF168 so the rep knows you want one of **Dan's "Scratch & Dent" PowerHub 1800 Solar Backup** packages. You may also send check or money order made payable to Solutions From Science to Dept. AF168, 2200 Illinois Route 84, P.O. Box 518, Thomson, IL 61285. First come, first served. ★

What Is the PowerHub 1800 Solar Back Up System?

The PowerHub 1800 converts power stored in your deep cycle batteries to 1800 watts of household power to operate your essential applications. It provides an affordable, high output, primary power solution for an off-grid cottage or cabin, as well as backup power for grid-connected homes when the power goes out. Setting up this power system is simple and hassle-free with built-in fuses, breakers, and cables. The **PowerHub 1800** is designed to be part of a system that allows you to easily connect to and charge your batteries with solar and wind inputs, and allows for pass-through generator output or generator charging of the batteries as well. And, its advanced automatic power transfer switching ensures your essential applications keep running in your grid-connected home should the power go out.

Nutrient-Dense Food For The First 72 Hours Of Any Emergency

By Mike Walters

In a true emergency, forget about finding what you need at the store. You know what it's like when there's even a moderate snowstorm in the forecast: no bottled water, no toilet paper, no bread to be found anywhere. The shelves are stripped bare in hours. Most people simply don't realize how fragile the food distribution system is in this country. In order to squeeze out every penny of profit, most stores now use just-in-time inventory systems, which leave no margin for error. Any kind of natural or manmade catastrophe would cut supply lines to the stores and leave millions of people with no way of getting food. And it could be anything. Power outages. Riots. A terrorist attack. Flooding. Blizzards. Hurricanes.

If you've never gotten around to buying an emergency food supply—even a smaller one that can get you through short emergencies—now is the time.

There's a lot to consider. Things like shelf life, nutritional value, cost, storage space, portability, and even the packaging. The ideal storage food is shelf stable for long

periods of time, nutritious, great tasting, easy to prepare, and easy to store.

But where can you find the best emergency food supply for your money?

The **72 Hour Emergency Meal Kit** from Solutions From Science fits the bill. It's shelf stable for up to 25 years, compact, delicious, convenient and nutritious.

The **72 Hour Emergency Meal Kit** gives you six pouches with two jumbo servings in each pouch. That's 12 portions—four meals a day—for one person for three days. And it comes in four delicious varieties: Lasagna, Chicken Ala King, Creamy Chicken Pasta and Savory Stroganoff.

Every one of our recipes is developed by expert chefs who understand that survival food is only as good as it tastes. Some people even use our emergency meal pouches as "Plan B" when they don't have time to get a home-cooked meal on the table. It's that good. It's also ideal to take along when you go camping, backpacking, fishing or hunting. The secret is in the careful preserva-

tion of the ingredients. Some companies cut corners by either freeze-drying all ingredients, or by dehydrating all ingredients. We don't. We use the right preservation technique for each food. This ensures that flavor, texture, color, and nutrients are all preserved optimally.

The compact packaging makes it easy to grab and go if you need to get to a safer location. You can even store some in the trunk of your car, just in case.

Remember: the first 72 hours of any emergency are critical. That's why we recommend—at the least—one **72 Hour Meal Kit** for each family member. One **72 Hour Emergency Meal Kit** normally costs \$59.95, but for the next 72 hours, you can buy it for just \$39.97 (plus \$15 shipping and handling). Remember, unlike others, our meal kits last for decades, specially packaged against moisture, sunlight and critters.

For the absolute fastest service, order online at www.72survival.com or call 1-877-327-0365 toll free and ask for Dept. AF171 to place your order. You can also send check or money order to Solutions From Science, Dept. AF171, 2200 Illinois Route 84, P.O. Box 518, Thomson, IL 61285.

Of course we offer an iron-clad money-back guarantee if for any reason you are not 100% satisfied. ★

New Ultra-Efficient Water Filter Fits In Your Pocket

By Mike Walters

Without a doubt special ops paratroopers endure some of the harshest conditions on Earth. And when they need clean water, elite soldiers are choosing the **Paratroopers Water Purifier**—the smallest, lightest, and most durable water purifier on Earth! If it's good enough for these guys, it's certainly good enough for you and any outdoors or survival situation you may encounter.

It's so small and lightweight you can easily carry it in your pocket or purse, backpack or glove box. What's more, it's just as effective at purifying water as larger, more expensive units!

- Weighs only 3.1 ounces, it's so light you won't even notice it!

- Removes 100% of harmful water-borne bacteria, including E.coli, Staphylococcus aureus, Salmonella typhi, Vibrio cholerae, and Legionella pneumophila.

- Completely removes suspended contaminants like dust, algae, and organic particles. Crystal clear water!

- Significantly reduces concentrations of heavy metal ions so your filtered water tastes fresh, crisp, and clean.

- Surprisingly fast filtration! Filters one third of a liter of water per minute. Just three minutes fills a liter bottle.

- Small size but a HUGE filtering capacity. Filter up to 2,000 liters of water before replacing the filter.

- Comes in a heavy-duty camouflage pouch with

drawstring to protect against accidental damage.

Even though it's small enough to fit in the palm of your hand, the **Paratroopers Water Purifier** can purify even the dirtiest lake, river and rain water, removing 100% of harmful bacteria—even E. coli. Skeptical? We were.

That's why we sent the **Paratroopers Water Purifier** to an independent lab to be tested against one of the best selling filters in America to see how well they removed E.coli from contaminated water.

The **Paratroopers Water Purifier** passed the test with flying colors. The independent lab confirmed that 100% of E. coli bacteria was removed. In spite of it's compact size, the **Paratroopers Water Purifier** matched the effectiveness of the full-size water purifier. (exact same results for much less).

The "Paratrooper" is ideal for:

- **Camping and backpacking:** Slip the **Paratroopers Water Purifier** into a side pouch for easy access. Quickly fill empty bottles at any stream, river, or lake.

- **Outdoor work:** If you'll be working outdoors in an area where it's hard to carry in water, then the Paratrooper's Water Filter could be the perfect solution. Bring a bottle of water with your purifier . . . because . . . with a natural water source nearby, you could have enough clean water to drink all day.

- **Emergency water filtration:** Have you unexpectedly run out of water and quickly need more? Carry your **Paratroopers Water Purifier** to the nearest water source and filter as much as you need.

Get one for yourself . . . and get one for each adult

Small, portable and able to purify water in just a few minutes.

family member in your household. That way you'll be guaranteed clean water anytime, anywhere.

And now, for the first time, it's available to citizens like you and me.

The **Paratroopers Water Purifier** is only **\$49.95 plus \$4.95 S&H**, a real bargain when you consider each one can provide you with up to 2,000 liters of fresh, purified water.

Plus, you'll be protected by a 90-Day Full Money-Back Guarantee. If for any reason you're not thrilled with your decision to get the **Paratroopers Water Purifier**, simply send it back in 90 days for a refund, less S&H.

For absolutely the fastest delivery, order online at www.BestLittleFilter.com. To charge by phone, call 1-800-217-3069 toll free. Tell our friendly customer service representatives that you want the **Paratroopers Water Purifier** system rushed to you. Send check or money order payable to Solutions From Science to: SFS, Dept. AF170, 2200 Illinois Route 84, P.O. Box 518, Thomson, IL 61285. ★

Former Special Forces Officer Shares Secrets For Hiding Your Guns & Other Valuables From Crooks

By Sam Sharkman Adams

One afternoon while my wife and kids were gone (handing out food at our church), I received a knock at the door. When I opened the door a crack to see who was there, my whole world turned upside down. Suddenly the door came crashing in on me as the security chain snapped like it was plastic.

Suddenly and unexpectedly, I was face to face with three vicious-looking punks and one of them had a gun aimed at my head. The other two had baseball bats. Even with all my Special Forces training, I was caught off guard and I'm ashamed to say that after an initial scuffle, I was beaten pretty badly.

But one of the few pieces of good news was that my real cache of guns remained untouched!

As those punks left my house that day they must have been feeling that they had cleaned me out completely. But I got the last laugh. Here's why: I had a secret cache of weapons hidden deep inside my house, where not even a sophisticated criminal would look.

As a result of my experience with the punks at the house, my military experiences and the experiences of hundreds of others I've heard about who had their guns stolen by criminals, I've written *Hide Your Guns*. In it I share the secrets of hard core gun caching I learned in my Special Forces days including: Where to hide your guns so the bad guys will never find them; how to create a hiding place—right in plain sight; the places you should never hide your guns; and the times when a safe isn't the solution. I also explain how to "harden the target," which means making it more difficult even to get into your home.

For example, I explain: The right home security system can protect against home invasion; The sticker you can put on your front door that criminals fear more than

a pit bull; How changing your light bulbs may protect against gun theft; and the most important room in your house for protecting your guns and family.

I also explain the truth about a "panic room" and how and when it might be a good idea for you to build one. But that's not all. I reveal all kinds of the cold hard truth about buying the right kind of safe for your home.

But there's more. If you're ready to take emergency preparedness to the next level, I'll show you the secrets known only to Special Forces types: the four different types of caches you need to consider; how much money to put in your survival cache; the 29 items you need in a backpack that will last you for days if you're on the move; the best material for building a simple cache that will withstand the elements; how to bury your cache so even metal detectors can't find it; the two items most people forget to put in their cache; the secret component in your cache to protect the contents from humidity and corrosion and more.

Of course, you'll need to know exactly where to put your cache of weapons, medicine and emergency supplies, and I'll let you in on a secret ... the absolutely worst place is in your back yard! I dedicate an entire chapter to the subject.

And I also give you step by step examples you can implement immediately to secure your guns, gold and other valuables. With this new-found knowledge you'll remain one of the few armed citizens when most of the pathetic sheep are rendered defenseless.

SPECIAL BONUS GIFT OFFER...

When you get your copy of the *Hide Your Guns* hard copy book, I'll throw in some other great gifts:

- *Hide Your Guns CD set*: I've recorded every word of the *Hide Your Guns* book on two CDs. With these CDs you can listen any time in your car, iPod etc..

- *The Great Gun Debate*. Here's a two-part CD set for debating with liberals about guns. Great stuff!

- *The Real Story Behind The Second Amendment DVD*. This DVD lays out the real reason the founders demanded the Second Amendment be included.

- *The No B.S. Home Defense With Firearms* ebook. This is a tightly edited 16-page ebook about how to use firearms to protect yourself and your family.

The whole package above—worth \$165—can be yours for just **\$49.95 plus \$9.95 S&H** in the U.S.

Of course we offer an iron-clad money-back guarantee if for any reason you are not 100% satisfied.

For the absolute fastest service, order online at www.HideYourGuns.com or call **1-877-327-0365** toll free and ask for Dept. AF169 to place your order. You can also send check or money order to Solutions From Science, Dept. AF169, 2200 Illinois Route 84, P.O. Box 518, Thomson, IL 61285.

How To Defend Yourself And Your Family Against The New Breed Of Lowlife Criminal Scum

By Mike Walters

Can you physically defend yourself against an attacker or a home invader? It's a scary thing to consider. Experts are saying criminals these days are so hardcore, they don't care whether their victims live or die. But here's an amazing new book that can turn even a 90-pound weakling into a lean-mean self-defense machine.

Predator Proof contains all the practical, easy-to-learn and apply self-defense techniques based on the work of John Ames. John's background as a self-defense and martial arts instructor includes training and experience in American Kickboxing, Ketsugo Jujitsu, Kung Fu and Tuite. He has also worked with

numerous police departments, the FBI and the ATF and as a cinematographer for several real-life crime series on The Discovery Channel. His experience on these programs has given him a keener insight into the devious mindset and behavior of criminals and how to deter and/or defeat them.

Each chapter of the book is designed in a logical, step-by-step fashion. It'll take you by the hand and show you exactly what you need to do to fortify your life from criminal scum.

Chapters include: 1. Self-Defense and the Law; 2. Understanding Predatory Behavior; 3. Understanding Our Physical and Emotional Response to Attack; 4. Everyday Situations; 5. General Combative Techniques; 6. Making Your Home Secure; 7. Firearms; 8. Seven Important Points to Remember.

No fluff or filler—just 138 pages with full color photo demonstrations of the techniques. You'll know what you need to make your life infinitely safer.

The price of the book is **\$19.97 + \$6.95 S&H** for a total of **\$26.92**. It's just **\$39.97** total (S&H waived) if you'd like us to send BOTH the book and CD set.

Order a copy 100% at my risk. Read it and try out as many of the Predator-Proofing technique as you wish. Then, if you are not satisfied for any reason send it back-in any condition within 90 days and every penny you paid will be returned!

For the absolute fastest service, order online at www.BecomePredatorProof.com or call us toll free at **1-877-327-0365** and ask for Dept. AF172. You can also send check or money order to Solutions From Science, Dept. AF172, 2200 Illinois Route 84, P.O. Box 518, Thomson, IL 61285.
